

## *Contents*

<i>Preface</i>	vii
Atomic Structure and Bonding	1
2. Radioactivity	25
3. The Periodic Table	40
4. The Gaseous State	49
5. The Liquid State	73
6. The Solid State	91
7. Cements	109
8. Electrochemistry and Metallic Corrosion	121
9. The Metallic Elements	141
10. Solutions	164
11. Colloids	181
12. Thermochemistry	192
13. Chemical Kinetics	206
14. Chemical Equilibria	216
15. Acids and Bases	236
16. Water Treatment	252
17. Separation Techniques: I, Distillation	265
18. Separation Techniques: II, Extraction	276

19. Separation Techniques: III, Desalination	
20. Organic Chemistry—Basic Concepts	
21. Hydrocarbons: I, Aliphatic Compounds	304
22. Hydrocarbons: II, Aromatic Compounds	
23. Hydroxy Compounds	327
24. Organic Acids and Bases	337
25. Coal	345
26. Petroleum-based Industries	367
27. Chemical Explosives	385
28. High Polymers	392
29. Lubricants and Detergents	421
<i>Appendix: SI Units</i>	
<i>Table of Elements, Symbols, Atomic Numbers, Atomic Weights</i>	437
<i>Periodic Table of the Elements</i>	439
<i>Index</i>	441
