

# Contents

<b>Techniques and uses of infrared refractivity</b>	1
J. Haigh, <i>Post Office Research Department</i> , and L. E. Sutton, F.R.S., <i>University of Oxford</i>	
<b>Neutron diffraction studies of molecular structures</b>	21
G. E. Bacon, <i>University of Sheffield</i>	
<b>Structure of crystalline polymers</b>	45
Hiroyuki Tadokoro, <i>Osaka University, Japan</i>	
<b>Magnetic susceptibilities of diamagnetic molecules</b>	91
R. Ditchfield, <i>Bell Telephone Laboratories, Murray Hill</i> , <i>New Jersey</i>	
<b>Acoustic studies of molecular conformational changes</b>	159
A. M. North and R. A. Pethrick, <i>University of Strathclyde</i>	
<b>Gas electron diffraction</b>	203
K. Kuchitsu, <i>University of Tokyo</i>	
<b>The theory of dielectric polarisation</b>	241
A. D. Buckingham, <i>University Chemical Laboratory</i> , <i>Cambridge</i>
