

Contents

General

Identifying Multiple Causes of Laboratory Accidents and Injuries	1
Preservation of Evidence After a Laboratory Incident Causing Injuries	8
Development of a Safety Program for Academic Laboratories	11
Working Alone in Research and Development Activities	16
Protective Lockout and Tagging of Equipment	19
Safe Practice in the Chemistry Laboratory—A Safety Manual	22
Safety Practices in the Chemical Laboratory ..	26
A Safety Survey in Research and Development Laboratories	28
A Survey of Safety in High School Chemistry Laboratories of Illinois	31
The Responsibility for a Safe High School Chemistry Laboratory	35
Organization of a Laboratory Safety Symposium	40
Activities of the Research and Development Section of the National Safety Council ...	42
Accident Facts in Two Clinical Laboratories—A Ten Year Study	44
Health Hazards and Precautions for Epoxy Resin Systems in Electron Microscopy and Other Laboratory Uses	46

Hazard Identification

Identification of Hazardous Materials	48
Hazardous Chemicals Handling in the Pharmaceutical Chemical Industry	63
RSMA Commodity Safety System	66
Fire Hazard Identification of Hospital Areas ...	72

Standards

Research Needed for Laboratory Safety Standards	75
Fire Safety Standard for Hospital Laboratories	80
Revised Safety Standards for Hospital Laboratories	83
New Fire Safety Standard Adopted for Laboratories in Health-Related Institutions	85
Progress on a Standard for Fire Protection of Laboratories	87

Cryogenics and Radiation Safety

Handling and Use of Cryogenics	90
Radiation Safety in the X-Ray Diffraction Lab.	93

Flammable and Chemical Hazards

Evaluation of Chemical Stability	96
Identification of Potential Chemical Reaction Hazards	99
Linking Thermodynamics and Kinetics to Predict Real Chemical Hazards	106
Estimation of Flash Point Temperature	111
Control of Peroxidizable Compounds	114
Safe Handling of Organic Peroxides	118
Safe Handling of Perchloric Acid in the Laboratory	123
Perchlorate Salts, Their Uses and Alternatives	125
An Investigation of High Impact Body Shields .	127
High Impact Shielding for Chemists	129
Design and Tests of a Portable Cask for Explosive Chemicals	130
Hazardous Reaction Cells	134
Potential Reaction between Sodium-Potassium Alloy and Teflon ^B in a Gas-Circulation System	140
Manual of Hazardous Chemical Reactions	141

Chemical Waste Disposal

Chemical Waste Disposal at the University of Minnesota	144
Control of Laboratory and Pilot Plant Waste Water Effluents	146

Accident Case Histories	152
Laboratory Fire Report	153
Subject Index	154
Author Index	156
Publication Dates for Articles—Journal of Chemical Education	157
