

Table of Contents

| | |
|--|----|
| Chapter 1: Quality Assurance Overview | 1 |
| Definitions | 2 |
| Components of the Analytical System | 2 |
| Structure of the Quality Assurance System | 3 |
| Establishing the Quality Management System | 3 |
| Quality Assurance Program Elements | 5 |
| Quality Objectives | 11 |
| Quality Assurance Committee | 12 |
| Quality Control Operations | 12 |
| Quality Assurance Documentation | 13 |
| Basic Premises of Quality Assurance | 14 |
| Recommendations | 14 |
| References | 15 |
| Chapter 2: Quality Assurance Manual | 17 |
| The Quality Assurance Manual | 18 |
| Standard Operating Procedures | 26 |
| Recommendations | 27 |
| References | 28 |
| Chapter 3: Statistical Applications and Control Charts | 29 |
| Data Types and Presentation | 30 |
| Measures of Central Tendency | 30 |
| Measures of Dispersion | 31 |
| Normal Distribution | 33 |
| Additional Useful Applications of Statistics | 33 |
| Standard Deviation Estimated from a Pair of Results | 35 |
| Combining (Pooling) Estimates of Standard Deviations | 35 |
| Standard Deviation Estimated from Duplicate Measurements | 35 |
| Comparison of Means: The t-Test | 36 |
| Confidence Interval for a Mean | 36 |
| Comparison of Two Standard Deviations: The F-Test | 37 |
| Important Statistical Tables | 37 |
| Outliers | 38 |
| Curve Line Fitting (Regression Line) | 38 |
| Control Charting | 39 |
| Control Limits | 40 |
| Construction of a Control Chart | 40 |
| Control Charts Based on Range | 42 |

| | |
|--|-----------|
| Guidelines on Interpretation of Control Charts | 43 |
| Cumulative Sum Charting | 44 |
| Recommendations | 44 |
| References | 45 |
| | |
| Chapter 4: Personnel Considerations | 47 |
| Management and Employee Roles | 47 |
| The Role of the Laboratory Director | 48 |
| The Role of Laboratory Supervisors | 49 |
| The Responsibilities of Non-Supervisory Staff | 50 |
| Role of the Quality Assurance Officer. | 51 |
| Position Qualifications and Position Descriptions | 52 |
| The Pre-Employment Interview | 52 |
| Orientation and Training | 53 |
| Training Methods | 55 |
| Performance Appraisals | 56 |
| Self-Evaluation | 57 |
| The Personnel File | 58 |
| Recommendations | 59 |
| References | 59 |
| | |
| Chapter 5: Laboratory Design | 61 |
| Laboratory Design Considerations | 62 |
| Laboratory Safety | 67 |
| Safety in Facility Design | 68 |
| Safety Equipment | 68 |
| Hazardous Materials | 69 |
| Emergency Control Procedures | 70 |
| Personal Habits and Safe Operating Practices | 70 |
| Recommendations | 72 |
| References | 73 |
| | |
| Chapter 6: Management of Equipment and Supplies | 75 |
| Equipment Selection and Purchase. | 75 |
| Equipment Installation and Servicing. | 76 |
| Effective Use and Preventive Maintenance of Equipment. | 77 |
| Supply Management | 81 |
| Chemicals | 81 |
| Reference Standards | 82 |
| Standardized Solutions | 85 |
| Purified Water. | 85 |
| Culture Media | 86 |
| Volumetric Glassware | 87 |
| Cleaning Glassware and Other Laboratory Ware | 87 |

| | |
|--|-----|
| Cleaning, Drying, and Sterilizing Bacteriological Ware | 88 |
| Recommendations | 88 |
| References | 89 |
| | |
| Chapter 7: Sampling | 91 |
| | |
| Sample Collection | 91 |
| The Sampling Plan | 92 |
| Subsampling for Analysis—Taking the Test Portion | 96 |
| Sample Preparation for Analysis | 97 |
| Sample Accountability | 99 |
| Retention of Samples and Records | 100 |
| Recommendations | 100 |
| References | 101 |
| | |
| Chapter 8: Records | 103 |
| | |
| Test Reports | 105 |
| Maintenance of Analytical Records | 106 |
| Retention of Sample Records | 107 |
| Automated Data Tracking Systems | 108 |
| Recommendations | 110 |
| References | 111 |
| | |
| Chapter 9: Methods and Analyses | 113 |
| | |
| Method Selection | 114 |
| Method Validation | 116 |
| Accuracy and Precision | 117 |
| Factors Affecting Precision | 119 |
| Collaborative Studies | 120 |
| Validation and Use of Non-Routine Methods | 121 |
| Method Attributes and Method Performance | 121 |
| Ruggedness Testing of Methods | 122 |
| Measurement Uncertainty | 123 |
| Methods Control | 124 |
| Role of Analysts | 124 |
| Factors Affecting Analytical Results | 125 |
| Recommendations | 127 |
| References | 128 |
| | |
| Chapter 10: Proficiency Testing | 131 |
| | |
| Proficiency Test Program Format | 132 |
| Interlaboratory Test Programs | 134 |
| Proficiency Test Samples—Blind or Double Blind? | 134 |
| Analysis of Proficiency Test Samples | 135 |

| | |
|--|------------|
| Determination of the Assigned Value | 135 |
| Assessment of Proficiency Test Results | 136 |
| Proficiency Testing Programs | 137 |
| Intralaboratory Testing | 138 |
| Recommendations | 139 |
| References | 139 |
| | |
| Chapter 11: Audit Procedures | 141 |
| Performance Audits | 141 |
| System Audits | 142 |
| The Quality Assurance Unit | 143 |
| Selection of Auditors | 144 |
| Auditor Training | 144 |
| Audit Planning | 145 |
| Audit Visit | 146 |
| The Audit Report | 147 |
| Recommendations | 148 |
| References | 148 |
| | |
| Chapter 12: Laboratory Accreditation | 149 |
| Laboratory Accreditation versus Quality System Registration | 149 |
| Objectives of Laboratory Accreditation Systems | 150 |
| Approaches to Accreditation | 151 |
| National Accreditation Programs | 152 |
| International Laboratory Accreditation Cooperation | 155 |
| International Accreditation Criteria | 155 |
| Good Laboratory Practices | 156 |
| Certification, Registration, or Licensing of Chemists | 157 |
| Recommendations | 158 |
| References | 158 |
| | |
| Appendix A: Instrument Performance Checks | 161 |
| Introduction | 161 |
| Index of Instruments | 161 |
| | |
| Appendix B: List of Organizations Referred to in the Text | 173 |
| | |
| Appendix C: List of ISO Quality Assurance Protocols Referred to in the Text | 175 |
| | |
| Index | 177 |
