

CONTENTS

Part I Introduction/Background

- | | |
|----------------------------------------------------|----|
| 1. Historical Development | 1 |
| 2. Principles of Near-Infrared Spectroscopy | 7 |
| 3. Theory of Diffuse Reflectance in the NIR Region | 13 |

Part II Instrumentation and Computerization

- | | |
|---------------------------------------------------------------------------|-----|
| 4. Commercial NIR Instrumentation | 37 |
| 5. Process Analysis | 53 |
| 6. Data Analysis: Multilinear Regression and Principal Component Analysis | 107 |
| 7. Data Analysis: Calibration of NIR Instruments by PLS Regression | 159 |
| 8. Analysis Using Fourier Transforms | 181 |

Part III Methods Development

- | | |
|-------------------------------------------------------------------------------|-----|
| 9. NIR Surface-Enhanced Raman Spectroscopy: New Developments and Applications | 225 |
| 10. NIR Spectroscopy Calibration Basics | 247 |
| 11. Samples, Sample Preparation, and Sample Selection | 281 |
| 12. Indicator Variables: How They May Save Time and Money in NIR Analysis | 317 |
| 13. Qualitative Discriminant Analysis | 329 |
| 14. Spectral Reconstruction | 365 |

Part IV Applications

- | | |
|--------------------------------------------------------------|-----|
| 15. Application of NIR Spectroscopy to Agricultural Products | 383 |
| 16. Tobacco Analysis by NIR Spectroscopy | 433 |
| 17. NIR Analysis of Wool | 475 |
| 18. NIR Analysis of Textiles | 495 |
| 19. NIR Analysis of Baked Products | 527 |
| 20. NIR Analysis of Pharmaceuticals | 549 |
| 21. NIR Analysis of Polymers | 565 |
| 22. NIR Analysis of Dairy Products | 609 |
| 23. NIR Analysis of Petrochemicals | 643 |
| 24. Application for NIR Analysis of Beverages | 655 |
| 25. FT/IR vs. NIR: A Study with Lignocellulose | 663 |

- | | |
|-------|-----|
| Index | 673 |
