

CONTENTS

1. Introduction	1
2. Principles	3
3. Photometers and Spectrophotometers	10
4. Analytical Applications of UV-VIS Spectroscopy	26
5. Recent Developments in UV-VIS Spectroscopy	81
6. Investigation of Equilibria	131
7. Investigation of the Kinetics of Chemical Reactions	165
8. Evaluation of UV-VIS Spectral Bands	215
