

## CONTENTS

Chapter I.	INTRODUCTION	4
Chapter II.	SOME ASPECTS OF THE INTERPRETATION OF VIBRATION SPECTRA OF ADSORBED MOLECULES	22
Chapter III.	EXPERIMENTAL METHODS FOR THE SPECTRAL STUDY OF SURFACE CHEMICAL COMPOUNDS AND ADSORBED SUBSTANCES	51
Chapter IV.	INFRARED SPECTRA OF SURFACE CHEMICAL COMPOUNDS OF SILICAS	75
Chapter V.	VARIATION IN THE SPECTRUM OF SURFACE HYDROXYL GROUPS OF SILICA DURING ADSORPTION, AND THE NATURE OF THE INTERACTION	123
Chapter VI.	ADSORPTION ON DEHYDROXYLATED SILICA SURFACES AND THE ROLE OF IMPURITY CENTERS IN ADSORPTION	158
Chapter VII.	INFRARED SPECTRA OF ADSORBED MOLECULES AND THEIR INTERACTION WITH A SILICA SURFACE	186
Chapter VIII.	SURFACE COMPOUNDS AND ADSORPTION ON ALUMINA	237
Chapter IX.	INFRARED SPECTRA OF SURFACE COMPOUNDS OF ALUMINO-SILICA GELS AND OF SUBSTANCES ADSORBED ON THEM	263
Chapter X.	STRUCTURAL HYDROXYL GROUPS AND ACID PROPERTIES OF ZEOLITES	288
Chapter XI.	SPECTRA AND STATE OF MOLECULES ADSORBED ON ZEOLITES	329
Chapter XII.	INFRARED SPECTRA AND THERMODYNAMIC PROPERTIES OF ADSORBED SUBSTANCES	363
Chapter XIII.	TRENDS AND PROSPECTS OF RESEARCH ON SURFACE CHEMISTRY AND ADSORPTION BY INFRARED SPECTROSCOPY	376
	SUBJECT INDEX	380
