

CONTENTS

CHAPTER 1. Safe Handling of Radioactivity	1
CHAPTER 2. Nuclear Instrumentation, Sources of Radiation and Radiochemical Techniques	12
CHAPTER 3. Measurement of Natural Radioactivity	38
CHAPTER 4. Principles of Activation Analysis	50
CHAPTER 5. Neutron Activation Analysis	61
CHAPTER 6. Positive Ion and Gamma Ray Activation Analysis	81
CHAPTER 7. Radiation Scattering and Absorption	90
CHAPTER 8. Isotope Dilution and Tracer Investigations of Analytical Techniques	95
CHAPTER 9. Radiometric Measurements and Exchange Reactions	101
CHAPTER 10. Geo- and Cosmochronology and Miscellaneous Nuclear Techniques	105
APPENDIX A. Chart of the Nuclides	111
APPENDIX B. Monographs on the Radiochemistry of the Elements	113
APPENDIX C. Uranium and Thorium Standards	116
APPENDIX D. Thermal Neutron Activation Data	118
APPENDIX E. Fast Neutron Activation Data	128
APPENDIX F. Abbreviations	132
INDEX	133
