

CONTENTS

1. Introduction to high performance liquid chromatography	1
2. Chromatographic theory	13
3. Equipment	42
4. Stationary phases in liquid chromatography	80
5. Mobile phases in liquid chromatography	127
6. Developing a chromatogram	145
7. Preparative high performance liquid chromatography and trace analysis	175
8. Applications of high performance liquid chromatography	189
