

CONTENTS

1. Measurement Concepts and Laser-Based Detection in High-Performance Micro Separations	1
2. Long-Lived Luminescence Detection in Liquid Chromatography	27
3. Chemiluminescent Detection in High-Performance Liquid Chromatography	57
4. HPLC Detection in the Near Infrared	77
5. Electrochemical Detection for Liquid Chromatography	91
6. Photothermal Detectors for High-Performance Liquid Chromatography	111
7. HPLC Detection Using Fourier Transform Infrared Spectrometry	127
8. HPLC Detection by Mass Spectrometry	163
9. High-Performance Liquid Chromatography Proton Nuclear Magnetic Resonance On-Line Coupling	197
