

## CONTENTS

<b>1. Introduction</b>	
1.1 Characteristics of Microscale HPLC	1
1.2 Classification of Microscale HPLC	3
1.3 Comparison of Column Efficiencies	4
<b>2. Instrumental Requirements in Microscale HPLC</b>	
2.1 Introduction	7
2.2 Fundamental Factors in Microscale HPLC	9
2.3 Instrumental Requirements for Microscale HPLC	13
2.4 HPLC Components Compatible with Semi-micro-columns and Microcolumns	30
<b>3. Microscale Columns</b>	
3.1 Introduction	33
3.2 Necessary Instrumentation	33
3.3 Precolumn Concentration	35
3.4 Characteristics of Microcolumns	37
3.5 Open-tubular (Capillary) Columns	44
3.6 Packed Microcapillary Columns	56
3.7 Semi-microcolumns	57
<b>4. Detection Systems</b>	
4.1 Introduction	69
4.2 UV Absorption Detectors	70
4.3 Fluorescence Detectors	78
4.4 Voltammetric Detectors	86
<b>5. Hyphenated Systems That Employ Microscale Columns</b>	
5.1 Microcolumn HPLC-IR Spectrometry	95
5.2 Microcolumn HPLC-Mass Spectrometry	103
<b>6. Post-Column Derivatization in Microscale HPLC</b>	
6.1 Introduction	115
6.2 Peak Broadening Caused by the Reactors	116
6.3 Applications	125

## **7. Applications of Microscale HPLC**

7.1 Introduction	127
7.2 Applications of Micro-HPLC	127
7.3 Application of Semi-micro-HPLC	155
7.4 Application of High-speed HPLC	169
