

CONTENTS

Part I: An HPLC Primer	1
1. Why HPLC? Advantages and Disadvantages	3
2. Selecting an HPLC System	15
3. Running Your Chromatograph	25
Part II: HPLC Optimization	43
4. Separation Models	45
5. Column Preparation	61
6. Column Aging, Diagnosis, and Healing	71
7. Modifications of Partition Chromatography	85
8. “Nonpartition” Chromatography	93
9. Hardware Specifics	99
10. Troubleshooting and Optimization	117
Part III: HPLC Utilization	127
11. Preparative Chromatography	129
12. Sample Preparation and Methods Development	135
13. Application Logic: Separations Overview	151
14. Automation: Separations and Data Acquisition	159
15. Where Do We Go from Here?	171
