

CONTENTS

| | |
|---|-----------|
| 1. Introduction | 1 |
| 1.1 What Does TLC Mean? | 1 |
| 1.2 When is TLC Used? | 2 |
| 1.3 Where is TLC Used? | 3 |
| 1.4 How is the Result of a TLC Represented? | 4 |
| 1.5 What Kinds of Reference Substances are Used in TLC? | 8 |
| 1.6 The Literature on TLC | 9 |
| | |
| 2. Precoated Layers | 15 |
| 2.1 Precoated Layers-Why? | 15 |
| 2.2 How are Precoated Layers Produced? | 16 |
| 2.3 What Types of Precoated Layers are there? | 21 |
| 2.4 What are the Uses of Precoated Layers? | 26 |
| 2.5 Criteria for the Selection of Stationary Phases in TLC | 26 |
| 2.6 Effect of the Stationary Phase when Mobile Phases are Identical | 29 |
| 2.7 Advice on the Ordering and Storage of Precoated Layers | 30 |
| 2.8 Problems in the Naming and Arrangement of Precoated Layers | 32 |
| | |
| 3. Before the TLC Development Process | 33 |
| 3.1 Handling of Precoated Layers | 33 |
| 3.2 Prewashing | 39 |
| 3.3 Activation | 41 |
| 3.4 Conditioning | 42 |
| 3.5 Impregnation | 44 |
| 3.6 Application of Samples | 48 |
| 3.7 Positioning of the Samples | 63 |
| 3.8 Drying before the Development | 65 |
| | |
| 4. Solvent System, Developing Chambers and Development | 67 |
| 4.1 Solvent Systems | 67 |
| 4.2 TLC Developing Chambers | 85 |
| 4.3 Development of Thin-Layer Chromatograms | 97 |
| 4.4 Drying after Development | 109 |

| | |
|---|------------|
| 5. Evaluation without Derivatization | 111 |
| 5.1 Direct Visual Evaluation | 111 |
| 5.2 Direct Optical Evaluation Using Instruments | 114 |
| 5.3 Coupled Methods for Substance Identification | 118 |
| 5.4 Documentation without or before Derivatization | 119 |
| | |
| 6. Derivatization | 121 |
| 6.1 Thermochemical Reaction | 122 |
| 6.2 Irradiation with High-Energy Light | 123 |
| 6.3 Reaction with Reagents | 125 |
| 6.4 Special Cases of Derivatization | 139 |
| 6.5 Further Treatment of Derivatized Chromatograms | 144 |
| | |
| 7. Evaluation after Derivatization | 149 |
| 7.1 Visual Evaluation | 149 |
| 7.2 Evaluation using a TLC Scanner | 150 |
| 7.3 Evaluation using a Video System | 170 |
| 7.4 Evaluation by Flat-Bed Scanner | 174 |
| | |
| 8. Documentation | 177 |
| 8.1 Description of a Thin-Layer Chromatogram | 177 |
| 8.2 Documentation by Drawing, Tracing and Photocopying | 178 |
| 8.3 Photographic Documentation | 179 |
| 8.4 Video Documentation | 185 |
| 8.5 TLC Scanner Documentation | 195 |
| 8.6 Flat-Bed Scanner Documentation | 195 |
| | |
| 9. GMP/GLP-Conforming Operations in TLC | 197 |
| 9.1 Validation of TLC Methods | 201 |
| 9.2 Use of Qualified/Calibrated Equipment | 205 |
| 9.3 GMP/GLP-Conforming Raw Data Sheets | 208 |
| 9.4 Examples of GMP/GLP-Conforming Testing Procedures (TPs) | 217 |
| | |
| 10. Effects of Stress | 235 |
| 10.1 Controlled Stress on a Substance | 235 |
| 10.2 TLC-Sensitive Substances | 236 |

| | |
|---|------------|
| 11. Special Methods in TLC | 241 |
| 11.1 AMD-Automated Multiple Development | 241 |
| 11.2 OPLC-Overpressured Layer Chromatography | 242 |
| 11.3 HPPLC-High Pressure Planar Liquid Chromatography | 243 |
| 11.4 TLC-FID/FTID-Combination of TLC and Flame-Ionization Detector or Flame-Thermionic Ionization Detector | 243 |
| 11.5 TLC-NDIR | 244 |
| 11.6 RPC-Rotation Planar Chromatography | 245 |
