

CONTENTS

1. Simplified theory of TLC	15
2. The separation number in linear and circular TLC	39
3. Advantages, limits and disadvantages of the ring developing technique	51
4. The U-chamber	73
5. Dosage techniques in HPTLC	85
6. High performance thin-layer chromatography: development, data and results	95
7. Consideration on the reproducibility of TLC separations	129
8. Potential and experience in quantitative HPTLC	147
9. Application of a new high-performance layer in quantitative TLC	189
