

CONTENTS

	PAGE
Preface to Eleventh Edition	v
Historical Introduction	1
1. Quality Tests	7
Receiving Room and Farm Tank Inspections	15
Bacterial Content	20
2. Collection of Milk and Cream Samples	30
Apparatus	30
Sterilization: Sampling Equipment and Procedures	34
Directions for Sampling	37
Retail Samples	39
Wholesale and Bulk Samples	40
3. Agar Plate Method	47
Equipment and Supplies	51
Tests for Growth Inhibition or Stimulation	60
Sterilization	64
Preparation of Plating Medium	64
Diluting Samples	67
Plating and Incubation	72
Counting Colonies	75
Reports	79
4. Direct Microscopic Method	83
Collection of Samples	87
Making Tests	87
Interpretation	102
5. Reduction Methods	107
Methylene Blue Reduction Method	107
Collection of Samples	110
Making Tests	110
Resazurin Reduction Method	114
Collection of Samples	116
Making Tests	116
6. Coliform Bacteria	121
Laboratory Supplies	131
Special Media	131
Procedure	133
Reports	135
7. Thermoduric, Thermophilic and Psychrophilic Bacteria	142
Thermoduric Bacteria	142
Laboratory Pasteurization	143
Screening Test, Oval Tube or Bottle Culture Method	144
Thermophilic Bacteria	146
Psychrophilic Bacteria	148
8. Detection of Pathogens	151
Enteric Pathogens—Salmonellae and Shigellae	152

<i>Brucella</i> Species	154
Detection of Brucellae Agglutinins in Milk (Cow, Goat and Sheep)	159
Milk Ring Test for Brucellosis—Synonyms: ABR Ring Test; Milk-Cream Ring Test	161
Tubercle Bacilli	162
Staphylococci	164
Pathogenic Streptococci	167
Q Fever	169
9. Miscellaneous Microbiological Methods	175
Simplified Methods for Viable Counts of Raw Milk	175
Oval Tube Method	175
Plate Loop Method	176
Micro Plate Method	178
Roll Tube Method	180
Screening Test, Burri Slant Method	182
Residual Penicillin in Fluid Milk	183
Disc Assay Methods	183
Screening Test—Reverse-Phase Disc Assay	186
Screening Test—FDA Rapid Disc Assay	186
Screening Test—TTC Reduction	188
Screening Test—Suitability of Plastic Caps	189
10. Concentrated Milk and Cultured Products	193
Evaporated Milk	193
Collection of Samples	193
Agar Plate Method	194
Preparing Samples	194
Condensed Milk	196
Collection of Samples	196
Agar Plate Method	197
Other Microbiological Analysis	198
Dry Milk	198
Collection of Samples	200
Agar Plate Method	200
Direct Microscopic Method	202
Other Microbiological Analysis	202
Cultured Milks and Cream	203
11. Microbiological Methods for Butter	206
Collection of Samples	207
Microbiological Methods	208
Yeast and Mold Content	208
Bacteriological Analysis	209
Screening Test, Burri Slant Method	210
Mold Mycelia Determination (Official AOAC Method)	211
12. Microbiological Methods for Cheese	215
Collection of Samples	217
Yeast and Mold Count of Soft Cheese	218
Bacteriological Analysis of Cottage Cheese	219
13. Ingredients of Ice Cream and Related Products	222
Coloring and Flavoring Materials	222
Collection of Samples	223
Agar Plate Method	224
Other Microbiological Analysis	225
Sweetening Agents	225
Collection of Samples	225
Microbiological Methods	226
Eggs and Egg Products	229
Collection of Samples	229
Agar Plate Method	231
Other Microbiological Analysis	233
Stabilizers	234

Collection of Samples	234
Agar Plate Method	235
Other Microbiological Analysis	236
14. Ice Cream and Related Frozen Products	238
Applications	238
Sampling Apparatus	240
Sampling Procedure	241
Agar Plate Method	244
Procedure	245
Direct Microscopic Method	248
Coliform Bacteria	249
<i>Staphylococcus aureus</i> and Beta-Hemolytic Streptococci	249
Phosphatase Tests	250
Chemical Composition	250
15. Sediment in Fluid Milk	253
Sampling	255
Equipment	256
Sediment Standards	257
Procedure	260
16. Tests for Sanitization of Equipment and Containers	263
Rinse Methods	265
Retail Milk Containers, Non-Nutrient Rinse Method	265
Retail Milk Containers, Nutrient Broth Rinse Method	267
Plant Equipment	268
Membrane Filter Method	269
Swab Contact Method	274
Screening Test (Seeing-Is-Believing)	277
Surface Agar Counts of Bottle Caps, Hoods and Gaskets	278
Disintegration Method for Paper Materials	279
Testing Samples	279
Standards	281
17. Tests for Suitability of Water and Air Supplies	284
Water Supplies	284
Air Supplies	287
Collection of Samples	288
Sedimentation	289
Liquid Impingement	290
Other Methods	291
18. Miscellaneous Chemical Methods	294
Fat in Milk—Gerber Method	294
Fat in Cream—Gerber Method	299
Fat in Chocolate Milk—Gerber Method	300
Fat in Frozen Desserts—Screening Test, Gerber Method	300
Fat in Homogenized Milk—Screening Test, Babcock Method	301
Added Water in Milk—Thermistor Cryoscope	302
Solids in Milk, Lactometric Method at 102° F	305
Weight per Unit Volume of Packaged Ice Cream	309
Volume Measurement of Displaced Fluid Method	309
Thiosulfate Titration Method for Available Chlorine	311
Radioactivity in Milk	312
Chemical Separation of Radionuclides	316
Screening Test, Hydrolytic Rancidity	322
19. Phosphatase Methods to Determine Pasteurization	326
Residual Phosphatase in Milk—Scharer I (Rapid) Method	331
Residual Phosphatase in Milk Products	335
Scharer II (Laboratory) Method	339

Screening Test—Detection of Heated Milk	
Admixed with Raw Milk	341
Residual Phosphatase in Milk	343
Method I (Gillreath-Davis)—Official, AOAC	343
Method II (Sanders-Sager)—Official, AOAC	346
Residual Phosphatase in Cream	350
Residual Phosphatase in Chocolate Milk Products	351
Residual Phosphatase in Butter—Official, AOAC	351
Residual Phosphatase in Cheese—Official, AOAC	352
Residual Phosphatase in Frozen Dairy	
Foods—Official, AOAC	357
20. Chemical Methods	359
Milk	359
Citric Acid—Official	360
Lactic Acid—Official	362
Total Solids	366
Casein	368
Protein-reducing Substances—First Action	369
Lactose—Official: Polarimetric Method	371
Fat	372
Rapid Detergent Method for Raw Milk—First Action	376
Added Water	377
Cryoscopic Method—Official	378
Gelatin	383
Preservatives	383
Formaldehyde	383
Qualitative Tests—First Action	384
Hydrogen Peroxide	384
Salicylic Acid—Qualitative Tests	384
Quantitative Method—Official	385
Benzoic Acid—Qualitative Tests	386
Quantitative Methods: Titrimetric	
Method—Official	387
Boric Acid and Borates	388
Hypochlorites and Chloramines—Procedure	389
Quaternary Ammonium Compounds	
(QAC)—Quantitative Method	390
Coloring Matters	392
Cream	393
Pressurized Cream—Official	393
Lactose	394
Fat	394
Ice Cream and Frozen Desserts	397
Weight per Unit Volume of Packaged Ice	
Cream—Official	397
Fat	399
Available Chlorine in Sodium Hypochlorite Solutions	400
Arsenious Oxide Titration Method—Official	400
Available Chlorine in Calcium Hypochlorite	
Solutions or Powders	401
Arsenious Oxide Titration Method—Official	401
Active Chlorine in Chloramine T	401
Arsenious Oxide Titration Method—Official	401
Appendix: Culture Media	403
Index	423
