

CONTENTS

PART I. BACTERIOLOGICAL METHODS

A. SAMPLES AND SAMPLING EQUIPMENT	7
B. AGAR PLATE METHOD	14
C. DIRECT MICROSCOPIC METHOD	41
D. METHYLENE BLUE REDUCTION METHOD	57
E. SEDIMENT TEST	65
F. TESTS FOR ORGANISMS OF THE COLIFORM (Escherichia-Aerobacter) GROUP	70
G. TESTS FOR PATHOGENIC, USUALLY HEMOLYTIC STREPTOCOCCI	82
H. EXAMINATION OF MILK FOR TUBERCLE BACILLI	89
I. PROCEDURES FOR THE DETECTION OF <i>Brucella</i> spp. IN MILK	94
J. DETERMINATION OF THE NUMBER OF BACTERIA IN PLAIN ICE CREAM	105
K. DETERMINATION OF YEASTS AND MOLDS IN BUTTER	113

PART II. BIOASSAY OF VITAMIN D MILK

A. COLLECTION AND PRESERVATION OF THE SAMPLE	118
B. PRELIMINARY PERIOD	119
C. DEPLETION PERIOD	120
D. ASSEMBLING RATS INTO GROUPS FOR ASSAY PERIOD	121
E. ASSAY PERIOD	121
F. PREPARATION OF STANDARD TO GIVE $\frac{1}{2}$ TO $\frac{2}{3}$ U.S.P. UNITS	123
G. LINE TEST	124
H. RECORDING OF DATA	125
I. VITAMIN D POTENCY OF THE MILK	125

PART III. CHEMICAL METHODS

A. MILK	127
B. CREAM	151
C. ICE CREAM (PLAIN)	156
D. MISCELLANEOUS	157

APPENDIX. PROPOSED PHOSPHATASE METHODS FOR DETERMINATION OF PASTEURIZATION	163
