

CONTENTS

I.	Industrial Hygiene and Industrial Poisons	1
II.	Sampling	21
III.	Measurement of Gas Volume and Quantity	55
IV.	Absorbers and Absorbents	79
V.	The Chemical and Microscopic Estimation of Dust	101
VI.	The Chemical and Microscopic Estimation of Silica	161
VII.	Lead, Mercury, and Arsenic	191
VIII.	Other Harmful Metals	249
IX.	Common Poisonous Compounds of Sulfur, Phosphorus, and Nitrogen; Oxygen and Ozone	309
X.	The Common Poisonous Compounds of the Halogens	373
XI.	Carbon Monoxide, Carbon Dioxide, Cyanides, and Nitriles	401
XII.	General Methods for the Determination of Combustible and Solvent Vapors	467
XIII.	Paraffin and Unsaturated Aliphatic Hydrocarbons	497
XIV.	Benzene and the Aromatic Hydrocarbons	521
XV.	Halogenated Hydrocarbons	557
XVI.	Alcohols, Glycols, Alcohol-Ethers, and Ethers	613
XVII.	Acids, Esters, Aldehydes, and Ketones	651
XVIII.	Phenolic Compounds; Aniline and Other Organic Nitrogen Compounds	697
