

CONTENTS

General Recommended Practices	1
Sampling Methods	83
Chemical Analysis of Ferrous Metals Steel, Cast Iron, Open-Hearth Iron, Wrought Iron	101
Chemical Analysis of Non-Ferrous Metals Nickel-Chromium-Iron Alloys	244
Nickel and Nickel-Copper Alloys	264
Copper and Copper-Base Alloys	327
Aluminum and Aluminum-Base Alloys	425
Magnesium and Magnesium-Base Alloys	462
Titanium and Titanium-Base Alloys	488
Zirconium and Zirconium-Base Alloys	535
Molybdenum	558
Lead, Tin, Antimony, And Their Alloys	564
Silver Solders and Other Brazing Alloys	606
Zinc and Zinc-Base Alloys	614
Chemical Analysis of Metal Powders	640
Spectrochemical Analysis Methods	643
Microchemical Analysis	730
Index	741
