<b>PREFACE</b>	<b>xiii</b>
<b>PEFACE TO FIRST EDITION</b>	<b>xv</b>
<b>CUMULATIVE LISTING OF VOLUMES IN SERIES</b>	<b>xvii</b>
<b>CHAPTER 1 INTRODUCTION</b>	<b>1</b>
Reference	4
<b>CHAPTER 2 TECHNIQUES</b>	<b>5</b>
References	14
<b>CHAPTER 3 APPLICATION OF SPOT TESTS IN CLINICAL ANALYSIS</b>	<b>15</b>
3.1. General	15
3.2. Screening for Glucose in Urine	16
3.3. Screening for Protein in Urine	20
3.4. Screening for Ketone Bodies in Urine	25
3.5. Screening for Bilirubin in Urine	27
3.6. Screening for Urobilinogen in Urine	30
3.7. Screening for Nitrite in Urine	32
3.8. Screening for Occult Blood in Urine	33
3.9. Test for the Presence of Hemoglobin in Urine	36
3.10. Urinary pH Screening	37
3.11. Screening for Phenylketones in Urine	38
3.12. Screening for Chloride in Urine	39
3.13. Screening for Ascorbic Acid in Urine	41
3.14. Screening for Cystinuria	42
3.15. Test Strip for Determining Ionic Strength and Specific Gravity	42

3.16. Test Kit for Urinary Luteinizing Hormone Assay	43
3.17. Test Strips for Determination of Urinary $\alpha$ -Amylase	43
3.18. Test for Edetates in Urine	43
3.19. Screening for Glucose in Blood	44
3.20. Screening for Urea in Blood	49
3.21. Screening for Hemoglobin in Whole Blood	50
3.22. Screening for Lactate in Whole Blood	51
3.23. Screening for Cholesterol in Blood	52
3.24. Screening for Cholinesterase Activity in Blood	54
3.25. Test for Calcium Determination in Body Fluids	54
3.26. Occult Blood Detection in Feces	55
3.27. Spot Tests for Urinary Calculi	58
3.28. Screening for Urinary Lactic Acid	59
3.29. Spot Tests for Detection of Cystic Fibrosis	60
3.30. Spot Test for the Detection of Fructose Deficiency in Semen	61
3.31. Rapid Detection of Polyamines	61
3.32. Spot Test Method for Specific Detection of $\beta$ -Lactamase	62
3.33. Screening for Urinary Copper Levels	62
3.34. Test Strips for Adenosine Triphosphate Determination in Fluid Samples	63
3.35. Urine Leukocyte Reagent Strip	63
3.36. A Test for Lacrimal Deficiency (Keratoconjunctivitis Sicca)	63
3.37. Spot Test for <i>Neisseria gonorrhoeae</i>	64
3.38. Immunochemical Test Kits in Clinical Analysis	64
References	72
<b>CHAPTER 4 FORENSIC APPLICATION OF SPOT TEST ANALYSIS</b>	<b>79</b>
4.1. General	79
4.2. Spot Tests for Detecting Residues of Firearm Discharge	79

4.3. Spot Tests for Explosives and Explosive Residues	89
4.4. Antibody-Based Field Test Kits for Explosives	110
4.5. Chemical Spot Tests for Drug and Poison Detection	111
4.6. Spot Testing for the Presence of Blood	131
4.7. Detection of Semen	136
4.8. Spot Tests for the Detection of Saliva	139
4.9. Tests for the Presence of Urine	141
References	143
<b>CHAPTER 5 APPLICATION OF SPOT TEST ANALYSIS IN GEOCHEMISTRY</b>	<b>149</b>
5.1. General	149
5.2. Selective Spot Tests Used in Geochemistry	150
5.3. Semiquantitative Field Tests Used in Geochemical Exploration	162
References	196
<b>CHAPTER 6 APPLICATION OF SPOT TESTS IN AIR POLLUTION CONTROL</b>	<b>199</b>
6.1. General	199
6.2. Evaluation of Selected Toxic Agents Using Detector Tubes or Impregnated Filter Paper Discs	203
References	232
<b>CHAPTER 7 WATER QUALITY SCREENING</b>	<b>235</b>
7.1. General	235
7.2. Testing for Inorganic Materials in Water	238
7.3. Testing for Organic Materials in Water	265
References	272
<b>CHAPTER 8 RAPID SCREENING TESTS OF SOILS AND PLANT TISSUES</b>	<b>275</b>
8.1. General	275
8.2. Screening Tests of Soils	277

8.3. Rapid Chemical Testing in Plant Tissue	290
References	295
<b>CHAPTER 9 RAPID SCREENING TESTS FOR FOOD ADULTERATION AND FOOD COMPOSITION</b>	<b>297</b>
9.1. General	297
9.2. Screening Tests for Sugars in Food	298
9.3. Screening Tests for Artificial Sweetening Agents	300
9.4. Detection of Adulteration of Egg Yolk by Turmeric	
9.5. Qualitative Screening for Natural and Artificial Food Colors	303
9.6. Screening for Adulteration of Dark-Colored Fruit Juices	
9.7. Test for Residual Hydrogen Peroxide in Wines	308
9.8. Tests for Nonpermitted Food Preservatives	309
9.9. Simple Spot Tests for Oxidative Rancidity Detection	313
9.10. Screening Tests for Antioxidants	314
9.11. Detection of Antibiotics in Food	316
9.12. Test for Penicillin in Milk	316
9.13. Qualitative Tests for Furazolidone, Tylosin, and Zoalene® in Feeds	
9.14. Rapid Tests for the Detection of Pesticides in Foodstuffs	318
9.15. Rapid Tests for Phosphorous Insecticide Residues in Fruits and Vegetables	323
9.16. Tests for Aflatoxin and Other Mycotoxins	323
9.17. Tests for Fungicides in Food Product Residues	324
9.18. Detection of EDTA-Type Compounds in Beer	326
9.19. Test for Enzymatic Chillproofing Agents in Beer	327
9.20. Simple Test for Adulteration of Crabmeat with Cod	327

9.21. Detection of Saxitoxin in Shellfish and Ciguatoxin in Marine Fish	
9.22. Test for Safrole in Beverages and Cough Syrup, and Sassafras Tea	329
9.23. Tests for Mammalian Feces and Urine Residues in Food	
9.24. A Quick Test for Detection of Ethylene Dibromide Residues in Food Grains	
9.25. Identification Tests for the Common Adulterant Acids in Vanilla	
9.26. Tests for Cyanides and Cyanogenic Glycosides	337
9.27. Simple Tests for the Quality and Composition of Flour	
9.28. Test for Differentiation Between Butter and Margarine	341
9.29. Tests for Milk Adulteration	342
9.30. Simple Tests of Meat Products	344
9.31. Tests for Edible Oils	346
9.32. Tests for Enzyme Activity in Food	349
9.33. Test for Marine Fish Freshness	353
9.34. Test for Diethylene Glycol in Wine	353
9.35. Test for Detection of Lactic Acid in Preserved Foods	354
9.36. Semiquantitative Simple Test for Ascorbic Acid in Juices	354
9.37. Test for Differentiation of Synthetic from Natural Vinegar	355
9.38. Test for Contamination by Microorganisms	355
9.39. Practical Screening Procedure for Sulfathiazole in Honey	356
References	356
<b>INDEX</b>	<b>361</b>
