

CONTENTS

CHAPTER 1 : INTRODUCTION

| | | |
|------|--------------------------------------|----|
| I. | The Electromagnetic Spectrum | 1 |
| II. | Interaction of Radiation with Matter | 4 |
| III. | Wave Mechanics | 12 |
| IV. | Symmetry Concepts | 24 |
| V. | Mass Spectrometry | 36 |
| | References | 36 |

CHAPTER 2 : ELECTRONIC SPECTROSCOPY

| | | |
|------|--|-----|
| I. | Principles of Electronic Spectroscopy | 37 |
| II. | Instrumentation and Sample Handling Procedures | 72 |
| III. | Experiments | 76 |
| | References | 112 |

CHAPTER 3 : VIBRATIONAL SPECTROSCOPY

| | | |
|------|--|-----|
| I. | Principles of Vibrational Spectroscopy | 115 |
| II. | Instrumentation and Sample Handling Procedures | 158 |
| III. | Experiments | 171 |
| | References | 213 |

CHAPTER 4 : NUCLEAR MAGNETIC RESONANCE

| | | |
|------|--|-----|
| I. | Principles of Nuclear Magnetic Resonance | 214 |
| II. | Instrumentation and Sample Handling | 260 |
| III. | Experiments | 265 |
| | References | 299 |

CHAPTER 5 : MASS SPECTROMETRY

| | | |
|------|--|-----|
| I. | Principles of Mass Spectrometry | 301 |
| II. | Instrumentation and Sample Handling Procedures | 324 |
| III. | Experiments | 338 |
| | References | 366 |
