

CONTENTS

1. Chemistry: Preparation of Systems for Absorptimetric Measurement	1
2. Physics: General Principles of Absorptimetric Measurements	78
3. Color Comparimeters	116
4. Filter Photometers	161
5. Spectrophotometers: Ultraviolet and Visible Regions	186
6. Photographic Methods	268
7. Applications of Ultraviolet and Visual Spectrophotometric Data	306
8. Spectrophotometers: Infrared Region	439
9. Measurement and Specification of Color	515
Index	601
