

CONTENTS

1. HISTORY AND IMPORTANCE OF ION EXCHANGERS	1
2. ION EXCHANGERS	6
2.1 Preparation of ion exchangers	6
2.2 Properties of ion exchangers and factors affecting them	15
3. THEORY OF OPERATION OF ION EXCHANGERS	40
3.1 Ion-exchange equilibrium	40
3.2 Theory of selectivity	47
3.3 Absorption of ionic compounds	56
3.4 Absorption of non-electrolytes	59
3.5 Ion-exchange kinetics	61
3.6 Energy changes in ion-exchange processes	69
4. METHODS FOR LABORATORY OPERATION OF ION EXCHANGERS. THE ION-EXCHANGE COLUMN	73
4.1 Laboratory equipment required	76
4.2 Preparation of a laboratory ion-exchange column	81
4.3 Operation of ion-exchange columns	83
5. METHODS OF TESTING ION-EXCHANGE RESINS AND COLUMNS	116
5.1 Methods for testing ion-exchange resins	116
5.2 Methods for testing ion-exchange columns	126
6. ION EXCHANGERS IN INORGANIC QUANTITATIVE ANALYSIS	131
6.1 Methods based on the principle of total ion-exchange	131
6.2 Chromatographic separations	156
6.3 Oxidation-reduction reactions on ion-exchange columns	213
6.4 Other applications	219
7. USE OF ION EXCHANGERS IN INORGANIC QUALITATIVE ANALYSIS	263
7.1 Removal of interfering ions	263
7.2 Separation of groups of cations	264
7.3 Microchemical detection of ions	268

8. USE OF ION EXCHANGERS IN ORGANIC ANALYSIS	274
8.1 Methods based on total cation- or anion-exchange	275
8.2 Isolation and separation from interfering substances	281
8.3 Separation on the basis of opposite charges	289
8.4 Separations by means of ion-exchange chromatography	295
8.5 Other methods of separation	312
8.6 Redox reactions taking place on ion-exchange column	317
8.7 Qualitative analytical applications	318
9. OTHER LABORATORY APPLICATIONS	327
9.1 Determination of some physico-chemical data of electrolytes	327
9.2 Purification of various substances and solutions. Collection of small amounts of ions	338
9.3 Ion-exchange catalysts	342
10. OTHER ION-EXCHANGE MATERIALS AND THEIR USE	346
10.1 Specificion-exchange resins	346
10.2 Adsorbents and amphoteric ion-exchange resins	352
10.3 Liquid ion exchangers	354
10.4 Ion-exchange membranes	357
10.5 Ion-exchange papers	381
10.6 Oxidation-reduction resins	388
APPENDIX	397
NAME INDEX	401
SUBJECT INDEX	421
