

CONTENTS

PART 1. THE TECHNIQUE AND THEORY OF HIGH SPEED LIQUID CHROMATOGRAPHY

1. History and General Description	3
2. Equipment for High Speed Liquid Chromatography	7
3. Theory of High Speed Liquid Chromatography: Thermodynamics	18
4. Theory of High Speed Liquid Chromatography: Kinetics	27
5. Conclusions and Future Developments	37

PART 2. HIGH SPEED LIQUID CHROMATOGRAMS

Introduction	43
1. Hydrocarbons and Petroleum	47
2. Acids	58
3. Aromatic Amines and Other Nitrogen Compounds	67
4. Phenols and Antioxidants	81
5. Sulfonic Acids, Dyes and Dye Intermediates	91
6. Insecticides and Herbicides	98
7. Nucleotides, Nucleosides and Nucleic Acid Bases	112
8. Pharmaceutical Products	120
9. Steroids	140
10. Natural Products	154
11. Miscellaneous	165
