

CONTENTS

VOLUME II

PART 3: INORGANIC POLAROGRAPHY

| | | |
|---------|--|-----|
| XX. | Alkali Metals | 423 |
| XXI. | Beryllium, Magnesium, Alkaline Earth Metals, and Radium | 430 |
| XXII. | Scandium, Yttrium, Lanthanum, and Rare Earth Elements | 435 |
| XXIII. | Titanium, Zirconium, Hafnium, and Thorium | 442 |
| XXIV. | Vanadium, Columbium, and Tantalum | 447 |
| XXV. | Chromium, Molybdenum, Tungsten, and Uranium | 453 |
| XXVI. | Manganese and Rhenium | 468 |
| XXVII. | Iron, Cobalt, Nickel, and Platinum Metals | 475 |
| XXVIII. | Copper, Silver, and Gold | 493 |
| XXIX. | Zinc, Cadmium, and Mercury | 503 |
| XXX. | Aluminum, Gallium, Indium, and Thallium | 513 |
| XXXI. | Germanium, Tin, and Lead | 522 |
| XXXII. | Nitrogen, Phosphorus, Arsenic, Antimony, and Bismuth | 533 |
| XXXIII. | Oxygen, Sulfur, Selenium, and Tellurium | 552 |
| XXXIV. | Inorganic Halogen Compounds. Anodic Waves of Halide Ions | 573 |
| XXXV. | Analysis of Alloys and Technical Materials | 582 |

PART 4: ORGANIC POLAROGRAPHY

| | | |
|----------|--|-----|
| XXXVI. | Oxidation and Reduction of Organic Compounds | 623 |
| XXXVII. | Unsaturated Hydrocarbons | 634 |
| XXXVIII. | Organic Halogen Compounds | 647 |
| XXXIX. | Carbonyl Compounds | 652 |
| XL. | Quinones | 699 |
| XLI. | Organic Acids and Acid Derivatives | 708 |
| XLII. | Nitro Compounds, Their Reduction Products, and Related Compounds | 746 |
| XLIII. | Sulfur Compounds. The Cysteine-Cystine System. Peroxides. Miscellaneous Organic Compounds | 779 |
| XLIV. | Heterocyclic Compounds Containing Oxygen | 795 |
| XLV. | Heterocyclic Compounds Containing Nitrogen | 809 |

PART 5: BIOLOGICAL APPLICATIONS OF POLAROGRAPHY

| | | |
|-------|--|-----|
| XLVI. | Catalytic Waves of Cystine and Other Mercaptoacids, of Their Disulfides and of Proteins. Applications to the Serological Detection of Cancer | 849 |
|-------|--|-----|

PART 6: AMPEROMETRIC TITRATIONS

| | | |
|--------|-------------------------|-----|
| XLVII. | Amperometric Titrations | 887 |
|--------|-------------------------|-----|

| | | |
|--|----------------------------|-----|
| | Author Index, Volumes I-II | 955 |
|--|----------------------------|-----|

| | | |
|--|-----------------------------|-----|
| | Subject Index, Volumes I-II | 971 |
|--|-----------------------------|-----|
