

CONTENTS

1. Introduction	1
2. Elemental Formulas	15
3. Radical Ions	30
4. General Appearance of the Spectrum	40
5. Series of Even-Electron Ions	52
6. Identification of Neutral Fragments	63
7. Postulation of Ion Structures	70
8. Mechanisms of Unimolecular Ion Decomposition Reactions	78
9. Molecular Structure Postulations	150
10. Solutions to Unknowns	171
References	203
Appendix	209
