545.8 KRU

CONTENTS

| Preface | V |
|--|-----|
| Introduction | 1 |
| Absorption photometry in the ultraviolet and visible regions | 8 |
| Absorption photometry in the infrared region | 21 |
| Spectropolarimetry | 29 |
| Flame Photometry | 39 |
| Emission spectrography | 48 |
| X-Ray fluorescence analysis | 56 |
| Column chromatography | 74 |
| Gas Chromatography | 86 |
| Thin-layer chromatography of radioactive substances | 98 |
| Liquid scintillation measurements | 111 |
| Activation analysis | 117 |
| Polarography | 130 |
| Coulometry | 14 |
| Electrophoresis | 152 |
| Differential thermal analysis | 168 |
| Nuclear magnetic resonance spectrometry | 177 |
| Mass spectrometry | 187 |
| Craig extraction | 195 |
| The application of instrumental methods in process analysis | 203 |
| Applications in the clinical chemical laboratory | 211 |
