

CONTENTS

Introduction	1
Part I: Technique of Observation and Manipulation	20
Use of Optical Aids	20
Technique of Experimentation and Observation	67
Work on the Centigram Scale	81
Work on the Milligram Scale	104
Techniques of the Submilligram Scale	128
Work on the Microgram Scale	193
Part II: Systematic Analysis	228
Sampling for Analysis	230
Systematic Procedure of Analysis	234
Final Review of Observations and Report	428
