

CONTENTS

Preface	1
An Appreciation of Karl FISCHER	3
Karl Fischer Titration-50 Years	10
I. Introduction	12
II. Basic Principles	13
III. Modern Views on the Reaction Mechanism	16
IV. Practical Aspects	18
4.1 pH Dependency of the Karl Fischer Titration	18
4.2 Solvent Dependency of the Karl Fischer Titration	18
V. Methods	20
5.1 Volumetric Water Determination	20
5.2 Coulometric Water Determination	21
VI. MERCK Karl Fischer Reagents	23
6.1 Separate Karl Fischer Reagents for Use as Combined Karl Fischer Solution	23
6.2 Combined Karl Fischer Reagents	26
6.3 Separate Karl Fischer Reagents for Use as Solvent and Titrant	26
6.4 Experimental Method: Volumetric Water Determination	30
6.5 Karl Fischer Reagent for Coulometric Water Determination	31
6.6 Experimental Method: Coulometric Water Determination	31
VII. Overview of Karl Fischer Titration Methods	34
VIII. Apparatus and End Point Detection	36
8.1 Titration Cells	36
8.2 Burettes	37
8.3 End Point Detection	37
IX. Experimental Technique	44
9.1 Influence of Atmospheric Moisture	44
9.2 Solvents for Karl Fischer Titration	46
9.3 Buffers for Karl Fischer Titration	47
X. Sample Treatment and Preparation	48
10.1 Sampling	48
10.2 Sample Bottles	48
10.3 Sample Storage	49
10.4 Sample Preparation and Homogenization	49
10.5 Sample Weighing	56
10.6 Introduction of Sample	57
10.7 Gaseous Samples	64

XI.	Water Determination	67
11.1	Preliminary Titration	67
11.2	Standardization	67
11.3	Influence of Temperature	69
11.4	Inert Materials	70
11.5	Side Reactions Between Sample Material and Karl Fischer Reagent	73
XII.	Applications of the Karl Fischer Method	75
12.1	Mineral Oil Products	75
12.2	Other Solvents, Ketones and Aldehydes	77
12.3	Amines	79
12.4	Mercaptans, Mercapto Acids and Ascorbic Acid	80
12.5	Phenols and Plastics	82
12.6	Carbonates, Bicarbonates, Hydroxides and Oxides	83
12.7	Cosmetics and Pharmaceuticals	84
12.8	Fats and Oils	85
12.9	Dairy Products	86
XIII.	Karl Fischer Titration as a Standard Method	90
XIV.	Karl Fischer Titration as a Pharmacopoeia Method	93
XV.	References	94
XVI.	Index	96
