

CONTENTS

GENERAL PREFACE	v
PREFACE TO VOLUME 2	vii
CONTENTS OF OTHER VOLUMES	xv
CHAPTER V. ELECTRICAL AND ELECTRONIC METHODS	267
1 Electrical Techniques	267
2 Sonic and Ultrasonic Techniques	316
3 Microwave Method	320
4 Electrolytic Method	334
5 Conclusion	340
References	341
CHAPTER VI. SPECTROSCOPIC METHODS AND TECHNIQUES	345
1 Infrared Spectroscopy	345
2 Mass-Spectrometric Method of Moisture Measurement	393
References	403
CHAPTER VII. NUCLEAR METHODS AND TECHNIQUES	409
1 Nuclear Magnetic Resonance Method of Moisture Determination	409
2 Neutron-Scattering Method of Moisture Measurement	472
3 Conclusion	495
References	497

CHAPTER VIII. AUTOMATIC CONTROL OF MOISTURE	505
1 Introduction	505
2 Fundamentals of Automatic Control	506
3 Automatic Control System	509
4 Applications of Automatic Control of Moisture	532
5 Economics of Automatic Control of Moisture	578
References	583

Cumulative Indexes will appear at the end of Volume 4.
