

## CONTENTS

|   |     |
|---|-----|
| 1. INTRODUCTION   | 17  |
| <b>PART I. LIQUID-LIQUID EXTRACTION IN THE SEPARATION OF HEAVY METALS</b>   |     |
| 2. GENERAL TREATMENT  |     |
| 2.1 Principles of liquid-liquid extraction  | 29  |
| 2.2 Classification-Ion association extraction system, chelate extraction system   | 31  |
| 2.3 Extraction equilibria-Kinetic factors   | 37  |
| 2.4 Types of extraction-Batch extraction, continuous extraction, and countercurrent extraction                                  | 40  |
| 2.5 Apparatus-General techniques  | 42  |
| 2.6 Applications  | 52  |
| 3. METALS OF GROUPS I AND II-SILVER, CAESIUM, GOLD, CADMIUM AND MERCURY   |     |
| 3.1 Silver  | 54  |
| 3.2 Caesium   | 55  |
| 3.3 Gold  | 56  |
| 3.4 Cadmium   | 57  |
| 3.5 Mercury   | 59  |
| 4. METALS OF GROUPS III AND IV-INDIUM, RARE EARTHS, THALLIUM, ACTINIUM, ZIRCONIUM, HAFNIUM, TIN, LEAD AND THORIUM               |     |
| 4.1 Indium  | 61  |
| 4.2 Rare Earths   | 64  |
| 4.3 Thallium  | 68  |
| 4.4 Actinium  | 70  |
| 4.5 Zirconium and hafnium   | 71  |
| 4.6 Tin   | 73  |
| 4.7 Lead  | 74  |
| 4.8 Thorium   | 77  |
| 5. METALS OF GROUPS V AND VI-NIOBIUM, ANTIMONY, TANTALUM, BISMUTH, PROTOACTINIUM, MOLYBDENUM, URANIUM AND TRANSURANIUM ELEMENTS |     |
| 5.1 Niobium   | 82  |
| 5.2 Antimony  | 87  |
| 5.3 Tantalum  | 89  |
| 5.4 Bismuth   | 92  |
| 5.5 Protoactinium   | 93  |
| 5.6 Molybdenum  | 96  |
| 5.7 Uranium   | 98  |
| 5.8 Transuranium elements   | 105 |

|  |   |     |
|--|---|-----|
| 6.   | METALS OF GROUPS VII AND VIII-TECHNETIUM, RHENIUM AND PLATINUM<br>METALS  |     |
| 6.1  | Technetium  | 114 |
| 6.2  | Rhenium   | 115 |
| 6.3  | Platinum metals   | 116 |
| <b>PART II. SEPARATION OF HEAVY METALS BY ION EXCHANGE</b> |   |     |
| 7.   | GENERAL TREATMENT   | 123 |
| 7.1  | Theory of ion exchange  | 123 |
| 7.2  | Characteristics of ion exchange resins  | 127 |
| 7.3  | Ion exchange equilibria   | 133 |
| 7.4  | General techniques-Batch operation, column operation  | 138 |
| 7.5  | Apparatus   | 143 |
| 7.6  | Ion exchange chromatography   | 148 |
| 7.7  | Applications  | 151 |
| 8.   | METALS OF GROUPS I AND II-RUBIDIUM, CAESIUM, STRONTIUM, BARIUM,<br>MERCURY AND RADIUM   |     |
| 8.1  | Rubidium, caesium   | 153 |
| 8.2  | Strontium, barium   | 153 |
| 8.3  | Mercury   | 156 |
| 8.4  | Radium  | 156 |
| 9.   | METALS OF GROUPS III AND IV-RARE EARTHS, INDIUM, ZIRCONIUM, HAFNIUM,<br>LEAD AND THORIUM  |     |
| 9.1  | Rare earths   | 158 |
| 9.2  | Indium  | 169 |
| 9.3  | Zirconium, hafnium  | 170 |
| 9.4  | Tin   | 174 |
| 9.5  | Lead  | 175 |
| 9.6  | Thorium   | 175 |
| 10.  | METALS OF GROUPS V AND VI-NIOBIUM, BISMUTH, TANTALUM, PROTOACTINIUM,<br>MOLYBDENUM, TELLURIUM, URANIUM, AND TRANSURANIUM ELEMENTS |     |
| 10.1   | Niobium, tantalum   | 179 |
| 10.2   | Bismuth   | 179 |
| 10.3   | Protoactinium   | 180 |
| 10.4   | Molybdenum  | 182 |
| 10.5   | Tellurium   | 183 |
| 10.6   | Uranium   | 184 |
| 10.7   | Transuranium elements   | 188 |

|  |     |
|--|-----|
| 11. METALS OF GROUPS VII AND VIII-TECHNETIUM, RHENIUM AND PLATINUM |     |
| METALS   |     |
| 11.1 Technetium  | 197 |
| 11.2 Rhenium   | 198 |
| 11.3 Platinum metals   | 198 |

### **PART III. –ANALYTICAL PROCEDURES**

|   |  |
|---|--|
| 12. SILVER, CAESIUM, GOLD, STRONTIUM, CADMIUM, BARIUM, MERCURY; INDIUM,<br>RARE EARTHS, THALLIUM, ACTINIUM; ZIRCONIUM, TIN, HAFNIUM, LEAD,<br>THORIUM; NIOBIUM, TANTALUM, ANTIMONY, BISMUTH; MOLYBDENUM,<br>TELLURIUM, TUNGSTEN, URANIUM; TECHNETIUM, RUTHENIUM, RHENIUM,<br>RHODIUM, PALLADIUM, OSMIUM, IRIDIUM AND PLATINUM |  |
|---|--|

### **PART IV. –RADIOCHEMICAL SEPARATION PROCEDURES**

|  |     |
|--|-----|
| 13. RADIOCHEMICAL SEPARATION PROCEDURES                          |     |
| 13.1 Introduction  | 243 |
| 13.2 Separation of uranium-233 from irradiated thorium           | 244 |
| 13.3 Processing of fuel in homogeneous reactors                  | 247 |
| 13.4 Production of radioisotopes                                 | 249 |
| 13.5 Recovery of radioactive cationic fission products           | 265 |
| 13.6 Szilard-Chalmer's reaction: Enrichment of antimony-activity | 266 |
| 13.7 Radiochemical analysis of radioactive dusts                 | 266 |
| APPENDIX   | 273 |
| AUTHOR INDEX   | 301 |
| SUBJECT INDEX  | 305 |
