

CONTENTS

Chapter 1	Introduction	1
Chapter 2	Oxidation States and Stereochemistry	8
Chapter 3	Complexes of the Zerovalent Metals	27
Chapter 4	Hydride Complexes of the Divalent Metals	50
Chapter 5	Complexes of the Divalent Metals with Ligands from Groups IA, IIA, IIIB and the Transition Metals	66
Chapter 6	Complexes with Group IVB Elements	75
Chapter 7	Complexes with Group VB Elements	112
Chapter 8	Divalent Complexes with Group VIB Elements	165
Chapter 9	Divalent Metal Halides	230
Chapter 10	Compounds and Complexes of the Tetravalent Metals	251
Chapter 11	Substitution Reactions	292
Chapter 12	Organometallic Complexes Involving Metal-Carbon σ -bonds	324
Chapter 13	Olefin and Acetylene Complexes	361
Chapter 14	π -Allyl Complexes	418
Appendix I	Starting Materials for the Preparation of Complexes of Platinum and Palladium	452
Appendix II	Structural Data on Palladium and Platinum Compounds	470
Index		521
