

CONTENTS

I.	Introduction	1
II.	Precursors to the Boranes	10
III.	Formation of the Boron-Hydrogen Bond and Diborane	35
IV.	Preparation and Properties of the Boranes	53
V.	Preparation of Pentaborane (9) from Diborane	90
VI.	Preparation of Decaborane from Diborane	102
VII.	Kinetics and Mechanism Studies	116
VIII.	Preparation and Properties of Alkylboranes	135
IX.	Preparation and Properties of Carboranes	163
X.	Separation and Purification	185
XI.	Analytical Methods	199
XII.	Boron-Nitrogen Chemistry	232
XIII.	Acid-Base Chemistry	250
	Appendix A. Toxicology	289
	Appendix B. Infrared Spectra	332
	Appendix C. Molecular Structures	352
	Appendix D. Physical Properties of Boranes and Their Derivatives	363
	Appendix E. Physical Properties of the Carboranes	417
	REFERENCES	433
	SUPPLEMENTARY BIBLIOGRAPHY	490
	AUTHOR INDEX	505
	SUBJECT INDEX	528
