546.723 KAR pt.1

CONTENTS

1 Elemental Sulfur **1**

1.1 Uses and Sources 1

1.2 Properties 7

1.3 Purification of Sulfur 20

1.4 Analysis of Sulfur 22

1.5 Determination of Elemental Sulfur in Other Materials 66

2 Total Sulfur **89**

2.1 Introduction 89

2.2 Sampling 90

2.3 Sample Treatment of Organic Sulfur-Containing Materials 92

2.4 Sample Treatment of Inorganic Sulfur-Containing Materials 97

2.5 Finishing Techniques 113

2.6 Instrumental Methods 119

2.7 Summary Table of Suggested Methods 130

3 Sulfur-Containing Gases **145**

3.1 Introduction 145

3.2 Sampling 148

3.3 Methods of Aanalysis 150

3.4 Calibration Methods 176

4 Oxygen-Containing Inorganic Sulfur Compounds **183**

4.1 Sulfuric Acid 183

4.2 Alkali Sulfates 200

4.3 Other Sulfates 212

4.4 Sulfur Trioxide 214

4.5 Sulfurous Acid 219

4.6 Sulfites 223

4.7 Thiosulfates 232

4.8 Thionates 236

4.9 Dithionites 244

4.10 Sulfur Dioxide 247

4.11 Persulfates 255

4.12 Sulfur Oxyhalides 261

4.13 Fluorosulfuric and Chlorosulfuric Acids 264

4.14 Amidosulfuric Acid 274

5 Nonoxygen-Containing Inorganic Sulfur Compounds **285**
5.1 Sulfides 285
5.2 Polysulfides 347
5.3 Carbon Disulfide 353
5.4 Thiocarbonates and Per-Thiocarbonates 373
5.5 Thiocyanates 379
5.6 Sulfur Halides and Related Compounds 415

6 Thiols **465**
6.1 Introduction 465
6.2 Methods of Detection and Identification 470
6.3 Methods of Determination 478

Index 521
