

## CONTENTS

PREFACE	vii
<b>I. THE NATURE AND SCOPE OF INORGANIC NON-AQUEOUS SOLVENTS</b>	<b>1</b>
<b>II. LIQUID AMMONIA</b>	<b>7</b>
Solubilities in Liquid Ammonia	10
Ammonolysis	12
Metals in Liquid Ammonia	15
Further Reading	20
<b>III. REACTIONS IN LIQUID AMMONIA</b>	<b>21</b>
Reactions of Metal-Ammonia Solutions	21
Oxidation Reactions	28
Metathetic Reactions	29
Titrations in Liquid Ammonia	31
Anhydrous Amines as Solvents	36
Titrations in Anhydrous Basic Solvents	38
Further Reading	41
<b>IV. PROTONIC SOLVENTS</b>	<b>42</b>
Levelling Action	44
Sulphuric Acid	47
Hydrogen Fluoride	57
Acetic Acid	70
Further Reading	85
<b>V. NON-PROTONIC SOLVENTS</b>	<b>86</b>
Bromine Trifluoride	87
Sulphur Dioxide	94
Dinitrogen Tetroxide	100
Phosphorus Oxychloride	106
Noble Gas Compounds as Ionizing Solvents	110
Further Reading	110

VI.	<b>HIGH TEMPERATURE SOVENTS</b>	<b>111</b>
	Experimental Methods	113
	The Structure of Fused Salts and Oxides	119
	Solutions of Elements in Fused Salts	126
	Reactions in Fused Salts	128
	Further Reading	139
	INDEX	141
