

CONTENTS

27. Copper	
A. G. MASSEY, University of Technology, Loughborough	
28. Silver	
N. R. THOMPSON, ICI, Runcorn Heath Laboratory, Cheshire	
29. Gold	
B. F. G. JOHNSON, University of Cambridge; R. DAVIS, Kingston Polytechnic	
30. Group IIB	187
B. J. AYLETT, Westfield College, University of London	
31. Scandium, Yttrium and Lanthanum	329
R. C. VICKERY, Hudson, Florida	
32. Titanium	355
R. J. H. CLARK, University College London	
33. Zirconium and Hafnium	419
D. C. BRADLEY and P. THORNTON, Queen Mary College, University of London	
34. Vanadium	491
R. J. H. CLARK, University College London	
35. The Chemistry of Niobium and Tantalum	553
D. BROWN, Atomic Energy Research Establishment, Harwell	
36. Chromium, Molybdenum and Tungsten	623
C. L. ROLLINSON, University of Maryland	
37. Manganese	771
R. D. W. KEMMITT , The University, Leicester	
38. Technetium	877
R. D. PEACOCK, The University, Leicester	

39.	Rhenium	905
	R. D. PEACOCK, The University, Leicester	
40.	Iron	979
	D. NICHOLLS, The University of Liverpool	
41.	Cobalt	1053
	D. NICHOLLS, The University of Liverpool	
42.	Nickel	1109
	D. NICHOLLS , The University of Liverpool	
43.	The Second- and Third-Row Elements of Group VIIIA , B and C	1163
	S. E. LIVINGSTONE, The University of New South Wales	
	Index	1371
