

CONTENTS

Chapter 1: Instrumentation	1
Chapter 2: Sample Introduction	32
Chapter 3: Chemical Ionization: Ion-Molecule Reactions	74
Chapter 4: Negative Ion Chemical Ionization	110
Chapter 5: The Ionization of Labile Materials (Part I)	132
Chapter 6: The Ionization of Labile Materials (Part II)	182
Chapter 7: Tandem Mass Spectrometry: The Dissociation of Ions	221
Chapter 8: Quantitative Analysis	272
References	301
Appendix	306
Index	317
