

CONTENTS

1. The Direct Titanium-Carbon Linkage	1
2. Tetra-Alkyl And Tetra-Aryl Titanates	19
3. Alkoxy-And Aryloxytitanium Halides	46
4. Chelated Compounds of Titanium	58
5. Compounds of Titanium and Polyols	69
6. Compounds of Titanium and Carboxylic Acids	81
7. Compounds of Titanium with Other Metallic Elements	96
8. Addition Compounds of Titanium Halides	114
9. Compounds of the Lower Valencies of Titanium	129
10. Miscellaneous Compounds	136
11. Organic Titanium Compounds as Catalysts	149
12. Applications of the Organic Titanium Compounds	168
Author Index	195
Subject Index	201
