## Ref. 547.122 YAT

## CONTENTS

| 1. Cedrene And Cedrol                                   | 1   |
|---|-----|
| 1-1 Environmetn of the Double Bond in Cedrene           | 1   |
| 1-2 Ring A of Cedrene                                   | 7   |
| 1-3 Ring B of Cedrene                                   | 10  |
| 1-4 Structure of Cedrene                                | 18  |
| 1-5 Structures of Cedrol and β-Cedrene                  | 27  |
| 1-6 Synthesis of Cedrene                                | 28  |
| 1-7 Relative Configuration of Cedrene and Cedrol        | 28  |
| 1-8 Absolute Configuration of Cedrene and Cedrol        | 35  |
| 1-9 Bibliography  | 36  |
| 2. Magostin   | 38  |
| 2-1 Formula of Mangostion                               | 38  |
| 2-2 Fnctional Groups of Mangostin                       | 40  |
| 2-3 Position of the Khydroxyl and Methoxyl Groups       | 44  |
| 2-4 nature an Position of the Side Chains               | 51  |
| 2-5 Additional Reactions of Mangostin                   | 62  |
| 2-6 Bibliography  | 71  |
| 3. Spegazzinidine and spegazzinine                      | 72  |
| 3-1 Functional Groups of Spegaxzzinidine                | 72  |
| 3-2 Relationship of Spegazzinidine to Aspoidospermine   | 76  |
| 3-3 Relative configuration of Spegazzinidine            | 83  |
| 3-4 Absolute Configuration of Spegazzinindine           | 85  |
| 3-5 Structure and Configuration of Spegazzinine         | 88  |
| 3-6 Bibliography  | 90  |
| 4. Quassin and Neoqassin                                | 91  |
| 4-1 Relationship between Quassin and Neoquassin         | 91  |
| 4-2 Functional Groups of Quassin and Neoquassin         | 94  |
| 4-3 Environment of the Methylated Diosphenol Grouping A | 98  |
| 4-4 Environment of the Methylated Diosphenol Grouping B | 103 |
| 4-5 Environment of the Lactone Ring in Quassin          | 107 |
| 4-6 The Structures of Quassin and Neoquassin            | 112 |
| 4-7 Stereochemistry of Quassin and Neoquassin           | 119 |
| 4-8 Bibiliography                                       | 120 |
| 5. Magnamycin   | 122 |
| 5-1 Structure of Isovalerylmycarose                     | 123 |
| 5-2 Structure of Mycaminose                             | 129 |

| 5-3 Attachment of Isovalerylmycarose and Mycaminose | 133 |
|---|-----|
| 5-4 Structure of the Magnamycin Nucleus             | 137 |
| 5-5 Stereochemistry of Magnamycin                   | 157 |
| 5-6 Bibliography                                    | 164 |
| Appendix  | 165 |
| Index 167   |     |
