

CONTENTS

Section 1. Spin-orbit coupling and intersystem crossing	1
Section 2. Magnetic resonance and magnetic interactions	63
Section 3. Photochemistry	181
Section 4. Radiationless transitions	213
Section 5. Triplet excitons	265
Section 6. Delayed fluorescence and phosphorescence	353
Section 7. Triplet state related to biology	479
Discussion	525
Index of names	530
Index of subjects	537
