## Ref. 547.139 DEL

## CONTENTS

| Chapter 1. Introduction   | 1   |
|---|-----|
| Chapter 2. The Chemistry Of Carbonium Ions  | 4   |
| Chapter 3 Electrophilic Hydrogen Addition of Water to Olefinic Compounds          | 24  |
| Chapter 4. Electrophilic Hydrogen Addition of Weak Acids to Olefinic Compounds    | 42  |
| Chapter 5. Electrophilic Hydrogen Addition of Mineral Acids to Olefinic Compounds | 51  |
| Chapter 6. Halogen Additions Electrophilic Chlorine                               | 73  |
| Chapter 7. Additions Involving Electrophilic Bromine And Iodine                   | 113 |
| Chapter 8. Additions Involving Electrophilic Oxygen and Sulphur                   | 154 |
| Chapter 9. Additions Involving Electrophilic Nitrogen Phosphorus and Arsenic      | 182 |
| Chapter 10 Electrophiles Involving Elements of Groups                             | 195 |
| Chapter 11 Additions to Acetylenes and Allenes                                    | 210 |
| Chapter 12 Additions to Conjugated Double Bonds And to Aromatic hydrocarbons      | 224 |
| Chapter 13 Additions to Other Multiple Bonds                                      | 252 |
| Subject Index   | 267 |
