

CONTENTS

1 Free Radical Reactions	1
2 Heats of Formation of Organic Free Radicals by kinetic Methods	22
3 Thermochemical Data for Free Radicals From Studies of Ions	59
4 theoretical Studies of The Energetics of Radicals	110
5 Photoacoustic Calorimetry of Radicals and Biradicals	150
6 A Short and Illustrated Guide to Metal-Alkyl Bonding Energetics	169
7 Resonance and 1,2-Rearrangements in Radicals:	
From Alkyl Radicals to Alkylcobalamins	196
8 Solvent Effects in the Reactions of Neutral Free Radicals	224
Index	294
