

CONTENTS

1. Considerations of Industrial Fine Chemical Synthesis	1
2. Alkylation and Allylation Adjacent to a Carbonyl Group	13
3. Asymmetric Alkylation or Amination of Allylic Esters	35
4. Suzuki Coupling Reactions	59
5. Heck Coupling Reactions	91
6. Sonogashira Coupling Reactions	113
7. Cross-Coupling Reactions	127
8. Regioselective or Asymmetric 1,2-Addition to Aldehydes	155
9. Olefin Metathesis Reactions	169
10. Cyclisation Reactions	181
11. Asymmetric Aldol and Michael Reactions	201
12. Stereoselective Hydroformylation, Carbonylation and Carboxylation Reactions	225
Index	251
