

CONTENTS

| | |
|--|-----|
| 27. Rate Constants in the Gas-Phase Oxidation of Alkanes and Alkyl Radicals | 1 |
| 28. Gas-Phase Reactions of Alkylperoxy and Alkoxy Radicals | 23 |
| 29. Low Temperature Gas- and Liquid-Phase Oxidations of Isobutane | 40 |
| 30. The Photo-Oxidation of 1,1 Azoisobutane, Reactions of the Isobutyl Free Radical with Oxygen | 58 |
| 31. Chain Propagation in the Oxidation of Alkyl Radicals | 69 |
| 32. Formation of O-Heterocycles as Major Products of the Gaseous Oxidation of n-Alkanes | 86 |
| 33. Slow Combustion in the Last Stages of Gas-Phase Hydrocarbon Oxidation | 111 |
| 35. Reactions of Hydrocarbons in Slowly Reacting Hydrogen-Oxygen Mixtures | 124 |
| 36. Some Current Views of the Mechanism of Free Radical Oxidations | 143 |
| 37. The Influence of Environmental Factors on the Activity of Homogeneous Oxidation Catalysts | 156 |
| 38. Catalyst-Inhibitor Conversion in Autoxidation Reactions | 160 |
| 39. Influence of Solubility and Structure on the Activity of Metal Complex Oxidation Catalysts | 182 |
| 40. Autoxidation of Hydrocarbons Catalyzed by Cobalt and Bromide Ions | 193 |
| 41. Homogeneous Catalysis of a Multistep Chain Oxidation | 207 |
| 42. The Influence of Halogen Compounds on Combustion Processes | 226 |
| 43. Problems in Heterogeneous Catalytic Oxidation | 242 |
| 44. Some Techniques for Studying the Surface of Solid Oxidation Catalysts | 254 |
| 45. Oxidation on Metal Oxide Surfaces | 261 |
| 46. Oxidation of 2-Methylpropene over Copper Oxide Catalysts in the Presence of Selenium Dioxide | 276 |
| 47. The Kinetics of Ammoxidation of Xylenes over Vanadium Catalysts | 288 |
| 48. Mechanisms of the Room Temperature Oxidation of Carbon Monoxide on Nickel Oxide | 292 |
| 49. Ionization from the Heterogeneous Catalytic oxidation of Hydrocarbons in the Vapor Phase | 313 |
| 50. Kinetic Study of the Formation of Hydrogen Peroxide by the Vapor phase Noncatalytic Oxidative Dehydrogenation of Propane | 326 |
| 51. Oxidation of Olefins Catalyzed by Selenium | 345 |
| 52. Autoxidation of Olefins Accompanying a Novel Hydrogen Transfer in a Silent Discharge | 352 |
| 53. Metal-Ion Catalyzed in the Oxidation of Acetaldehyde | 363 |
| 54. Nitric Acid Catalysis in the Oxidation of Aromatic Hydrocarbons | 382 |
| 55. Air Oxidation of Alcohols to Esters via Bromine-Nitric Acid Catalysis | 389 |
| 56. Oxidation of Aromatic Hydrocarbons to Alcohols and Aldehydes | 395 |
| 57. Hydroperoxide Oxidations Catalyzed by Metals. I. The Epoxidation of Olefins | 418 |
| Index | 433 |
