

CONTENTS

| | |
|---|-----|
| INTRODUCTION | 1 |
| I. NITRATION OF AROMATIC AND HETEROCYCLIC COMPOUNDS WITH NITRIC ACID AND NITRATING MIXTURE | 11 |
| 1. Nitration with nitric acid | 11 |
| 2. Nitration with a mixture of nitric and sulphuric acids | 19 |
| 3. Nitration with nitric acid and glacial acetic acid or acetic anhydride | 31 |
| 4. Nitration in the presence of catalysts | 43 |
| 5. The catalytic action of nitrous acid in nitration | 61 |
| II. THE MECHANISM OF THE NITRATION OF AROMATIC COMPOUNDS WITH NITRIC ACID AND NITRATING MIXTURE | 74 |
| III. NITRATION OF SATURATED, AROMATIC-ALIPHATIC AND UNSATURATED HYDROCARBONS WITH NITRIC ACID | 144 |
| 1. Properties of Nitroparaffins | 144 |
| 2. Preparation of mononitroparaffins and nitro compounds of the aliphatic-aromatic series | 155 |
| 3. Preparation of polynitroparaffins | 189 |
| 4. Properties of nitroolefines | 193 |
| 5. Nitration of unsaturated hydrocarbons | 199 |
| IV. NITRATION OF AMINES | 216 |
| V. NITRATION WITH NITROGEN OXIDES | 226 |
| A. NITRATION WITH NITROGEN OXIDES WITHOUT CATALYSTS | 226 |
| 1. Nitration in the liquid phase | 227 |
| 2. Nitration in the vapour phase | 244 |
| 3. Nitration of aromatic compounds with nitrous fumes | 251 |
| 4. Nitration of aliphatic-aromatic and aliphatic hydrocarbons with nitrogen oxides | 254 |
| B. NITRATION WITH NITROGEN OXIDES IN THE PRESENCE OF CATALYSTS | 268 |

Contents

| | |
|---|-----|
| VI. NITRATION OF ORGANIC COMPOUNDS WITH ORGANIC AND INORGANIC NITRATES AND NITROXYL CHLORIDE | 283 |
| 1. Nitration with Organic Nitrates | 283 |
| 2. Nitration with Inorganic Nitrates | 291 |
| 3. Nitration with Nitroxyl Chloride | 313 |
| AUTHOR INDEX | 315 |
| SUBJECT INDEX | 318 |
