CONTENTS

Chapter 1 General Considerations 1

1.1 Comparison of Spectral Disciplines, 1
1.2 The Raman Effect, 1
1.3 Molecular Polarizability, 8
1.4 The Resonance Raman Effect (RRE) and Pre-Resonance Raman Effect (pre-RRE), 10
1.5 Nonlinear Raman Effects, 12
1.6 Vibrational Spectra and Selection Rules, 12
1.7 "Mutual Exclusion Rule," 17
1.8 Group Frequencies, 22
1.9 Depolarization Ratios, 26
1.10 Raman Scattering From Optically Active Molecules (Circular Differential Raman Spectra), 31
References, 35

Chapter 2 Instrumentation and Sample Handling 38

2.1 Instrumentation, 38
2.2 Fluorescence and Its Reduction, 44
2.3 Colored Samples, 48
2.4 Sample Handling Techniques, 50
References, 66

Chapter 3 Amines, Alkynes, and Nitriles 68

3.1 Amines, 68
3.2 Alkynes, 70
3.3 Nitriles, 73
References, 76

Chapter 4 Carbonyls

4.1 Introduction, 77
4.2 Depolarization Values, 79
4.3 Summary, 105
4.4 Intensity Ratios of α-Unsaturated Carbonyls, 105
References, 110

Chapter 5 Ethylenic Double Bonds

5.1 Introduction, 111
5.2 Band Locations, 111
5.3 Band Intensities and Band Intensity Ratios, 116
5.4 Conjugated Acyclic Dienes, 125
5.5 Conjugated Cyclodienes, 130
5.6 Quantitative Analysis, 132
References, 137

Chapter 6 Ring Systems

6.1 Alicyclics, 139
6.2 Aromatics, 174
References, 188

Chapter 7 The Ethylene Methyl Group

References, 201

Chapter 8 Acyclic and Alicyclic Sulfur-Containing Compounds

8.1 Introduction, 202
8.2 Thiols, 203
8.3 Sulfides, 203
8.4 Disulfides, 218
8.5 Trisulfides, 236
8.6 Acyclic Polysulfides, 238
8.7 Vulcanized Rubbers, 238
8.8 Thioacetates, 240
References, 241

Chapter 9 Synthetic Polymers

9.1 Introduction, 243
9.2 Quantitative Aspects, 244
9.3 Stereoregularity, 245
9.4 Chain Conformation in the Solid State, 250
9.5 Chain Conformation in Solution, 255
References, 256

Chapter 10 Biological Materials

10.1 Introduction, 258
10.2 Amino Acids, 259
10.3 Biopolymer Conformations, 259
10.4 Amide I and Amide II Bands of Polypeptides, 260
10.5 The Amide III Band, 267
10.6 Proteins, 269
10.7 Carotenoids, 284
10.8 Chlorophylls, 285
10.9 Nucleic Acids and Polynucleotides, 286
10.10 Lipids, 295
10.11 Vitamins, 302
References, 302

Chapter 11 Remote Raman Spectroscopy in Pollution Studies

11.1 Introduction, 307
11.2 Detection and Measurement of Air Pollutants, 307
11.3 Detection and Determination of Water Pollutants, 316
References, 319

Subject Index 321

Wiswesser Line Notation Index 327
