

Table of Contents

Introduction	Page
	1

PART I

Fundamental Techniques and Preparation of Sample

Chapter I. Fundamental Apparatus and Operations ..	7
Capillaries	8
Microscope Slides	13
Microcones	14
Spot Plates	19
Reflex Tubes	19
Microbeakers	20
Determination of Weight	22
The Microscope	24
Reagents	25
Chapter II. Preparation of the Sample	25
Tests for Purity	25
Separation of Minor Components and Impurities	29
Mechanical Separation	29
Distillation	31
Fractional Distillation	33
Recrystallization	47
Zone Melting	59
Extraction	60
Sublimation	67
Drying and Removal of Solvent	71
Separation of Mixtures	76
Heterogeneous Mixtures	76
Homogeneous Mixtures	77

PART II

Preliminary Examination

	Page
Chapter III. Elementary Analysis	91
Carbon	91
Water	92
Oxygen	93
Other Elements	93
Decomposition of the Substance	94
Nitrogen	98
Halogens	100
Other Tests for Halogens	102
Sulfur	106
Phosphorus	107
Arsenic	107
Silicon	107
Metals	108
Quantitative Elementary Analysis	108
Chapter IV. Determination of Physical Constants	108
Melting Point	110
Boiling Point	115
Density	119
Refractive Index	124
Solids	124
Liquids	126
Crystallographic Properties	132
Crystal Optical Properties	133
Molecular Weight Determination	136
Specific Rotation	143
Chapter V. Solubility	146
Solvents	146
Determination of Solubility	148
Application of Solubility Data	153

PART III

Systematic Analysis

Chapter VI. Compounds of Order I.	156
Aldehydes	157
Generic Test	157
Classification Tests for Aldehydes	158
Derivatives of Aldehydes	160
Degradative Procedures	165
Chemical Separation of Aldehydes	165
Quantitative Determination of Aldehydes	166

	Page
Carbohydrates	172
Generic Test	172
Supplementary Tests	173
Sectional Tests	174
Classification Tests for Carbohydrates	174
Crystallization Test	177
Degradative Procedures	179
Chemical Separation of Carbohydrates	180
Quantitative Analysis of Carbohydrates	181
Acids	182
Generic Test	182
Divisional Test	183
Sectional Tests	183
Classification Tests	183
Derivatives of Acids	188
Degradative Procedures for Acids	192
Chemical Separation of Acids	194
Quantitative Analysis of Acids	194
Phenols	202
Generic Tests	202
Classification Tests for Phenols	202
Derivatives of Phenols	203
Degradative Procedures	207
Chemical Separation of Phenols	207
Quantitative Determination of Phenols	207
Esters	208
Generic Test	208
Derivatives of Esters	210
Degradative Procedures	212
Chemical Separation of Esters	212
Quantitative Determination of Esters	213
Acid Anhydrides and Lactones	220
Titration of Anhydrides and Lactones	220
2,4-Dichloroanilides of Anhydrides	221
Degradative Procedures	222
Chemical Separation	222
Quantitative Determination	222
Ketones	222
Generic Test	222
Derivatives of Ketones	223
Degradative Procedures	224
Chemical Separation of Ketones	225
Quantitative Determination of Ketones	225
Alcohols	225
Generic Test	225
Classification Test for Alcohols	226

	Page
Derivatives of Alcohols	228
Degradative Procedures for Alcohols	230
Chemical Separation of Alcohols	230
Quantitative Determination of Alcohols	231
Hydrocarbons and Ethers	233
Sectional Tests	234
Classification Tests	235
Derivatives of Hydrocarbons and Ethers	240
Degradaive Procedures for Hydrocarbons and Ethers	243
Chemical Separation of Hydrocarbons and Ethers	244
Quantitative Determination of Hydrocarbons	245
Ethers	249
Chapter VII. Compounds of Order II.	251
Genus 1. Acidic Species	253
Classification Reactions	253
Derivatives of Amino Acids	254
Degradaive Procedures for Acidic Nitrogen Compounds	257
Chemical Separation of Acidic Nitrogen Compounds	258
Genus 2. Basic Species	261
Classification Reactions	261
Derivatives of Amines	264
Degradaive Procedures	269
Chemical Separation	269
Quantitative Determination	270
Genus 3. Neutral Species	274
Classification Tests	274
Derivatives of Neutral Species	279
Degradaive Procedures for Neutral Species	279
Quantitative Determination of Neutral Species	279
Chapter VIII. Compounds of the Higher Orders	279
Halogen Compounds	279
Classification Test	279
Derivatives of Halogen Compounds	280
Degradaive Procedures for Halogen Compounds	283
Chemical Separation of Halogen Compounds	283
Quantitative Determination of Halogen Compounds	283
Sulfur Compounds	288
Classification Test	288
Derivatives of Sulfur Compounds	289
Degradaive Procedures for Sulfur Compounds	290
Chemical Separation of Sulfur Compounds	290
Quantitative Determination of Sulfur Compounds	291
Literature Cited.....	295

**Tables of Physical Constants of Compounds and Derivatives
Classified by Orders, Genera, Divisions, and Sections**

	Page
Arrangement of Tables and Data	309
Notes on the Use of the Tables	309
