PREFACE	5
1 INTRODUCTION	9
2 PRELIMINARY EXAMINATION	15
1. Appearance 17	9. Action of hot concentrated sulphuric acid 31
2. Odour 18	10. Action of 30% aqueous sodium hydroxide 32
3. Action of heat 18	11. Ferric chloride tests 34
4. Action of soda-lime 19	12. Tests for reducing properties 36
5. Elements tests 21	13. Tests for unsaturation 38
6. Mobility of halogen tests 25	
7. Barium chloride test 27	
8. Solubility 27	
3 CLASSIFICATION	41
Section I	
Metallic derivatives 44	
Section II	45
Carbohydrates and related compounds 46. Aldehydes and ketones, acetals 47; polyfunctional carbonyl compounds 49. Quinones 51. Carboxylic acids 52. Phenols and enols 56. Esters (of carboxylic acids) and anhydrides, lactones 58. Alcohols 60. Ethers 64. Hydrocarbons 65.	
Section III	66
Amines and amino-compounds (amino-acids, etc.) 66. Amine salts 78.	
Section IV	79
Ammonium salts, aldehyde-ammonias, amides, imides, nitriles 79. Acyl derivatives of bases (<i>N</i> -substituted amides) 83. Hydrazines, semicarbazide, hydroxylamine, their salts and carbonyl derivatives 85. Condensation products of aldehydes with ammonia or amines 87.	

Qualitative Organic Analysis

Section V

Nitro-, nitroso-, azoxy-, azo- and hydrazo-compounds.

Section VI

Compounds containing halogen (but not nitrogen or sulphur).

Alkyl halides 93. Aryl halides 93. Halogen-substituted aliphatic acids, aldehydes, ketones, ethers, alcohols and esters 94. Aliphatic polyhalides 95. Acid halides 96.

Section VII

Compounds containing nitrogen and halogen (but not sulphur).

Section VIII

Compounds containing sulphur (with or without nitrogen and /or halogen).

Ammonium salts of sulphonic acids 98. Sulphonic acids, sulphonamides 98. Amino-sulphonic acids 100. Sulphates of bases 101. Thioureas and thioamides 101. Sulphonyl halides 102. *N*-Halosulphonamides 103. Aldehyde and ketone bisulphite compounds 103. Thiols 103. Thioethers 104. Thio-acids 104. Esters of sulphonic acids 105.

4 SEPARATION OF MIXTURES OF ORGANIC COMPOUNDS

5 IDENTIFICATION (The preparation of derivatives)

6 MELTING POINT TABLES

7 PREPARATION OF REAGENTS
