PREFACE

CHAPTER 1

Introduction to the Kjeldahl Method

Text

References

CHAPTER 2

The Kjeldahl Digestion

Acid Requirements	9
Decomposition of Organic Material	15
Salt Addition.....	22
Potassium Sulfate	22
Sodium Sulfate	26
Phosphates, Phosphoric Anhydride, and Phosphoric Acid.....	30
Miscellaneous Salts.....	36
Oxidizing Agents.....	39
Potassium Permanganate.....	39
Hydrogen Peroxide.....	40
Perchloric Acid.....	42
Potassium Persulfate	43
The Boiling Period after Digestion.....	45
Reducing Agents	50
Reduction by Pretreatment	51
Salicylic Acid and Related Compounds	57
Catalysis.....	68
Mercury.....	71
Copper	72
Selenium.....	73
Mixed Catalyst.....	80
Miscellaneous Catalysts.....	81
References	83

CHAPTER 3

Digestion Procedure

Natural Products ..	90
Fertilizers	90

viii CONTENTS

Leather	91
Cereals, Grains, Grasses, Soils	92
Biological Materials, Foods, and Proteins	97
Coal, Fuels, Petroleum	101
Miscellaneous	109
Organic Materials	113
Amino Nitrogen	113
Nitro Compounds	115
Pyridine and Derivatives	121
Heterocyclic Nitrogen	125
Miscellaneous Nitrogen Linkages	126
Submicro Methods	133
References	141

CHAPTER 4

Distillation and Determination of Nitrogen

Text	147
References	167

General Bibliography

Reviews	169
General	170
Oxidizing Agents	181
Reducing Agents	185
Catalysts	190
Natural Products	199
Nitro and Non-Aminoid Nitrogen	210
Distillation and Estimation of Nitrogen	214
Apparatus	224

SUBJECT INDEX	235
