Prologue	IX
Editorial note	XI
List of participants	xiii
Welcoming address by E. R. H. Jones	

## *Session I*

### CHEMICAL ASPECTS I

*Chairman: T. P. Hilditch*

- Behaviour of polyunsaturated fatty acids on the gas-liquid chromatogram 3  
*A. T. James and J. P. W. Webb (London, England)*
2. Analysis of unsaturated fatty acids 9  
*R. T. Holman, H. Hayes and P. R. Edmondson (Minnesota, U.S.A.)*
3. The determination of *cis,cis*-linoleic acid in the presence of its geometric isomers 16  
*G. J. van Beers, S. Sparreboom and J. G. Keppeler (Vlaardingen, Holland)*

*Chairman: E. Klenk*

4. Applications of an enzymatic method for determining polyunsaturated fatty acids 21  
*J. MacGee, F. H. Mattson and L. W. Beck (Ohio, U.S.A.)*
5. The mechanism of the oxidation of linoleic acid with particular reference to metal catalysis 30  
*N. Uri (Aberdeen, Scotland)*
6. Some natural hydroxy and epoxy acids 36  
*F. D. Gunstone (Fife, Scotland)*

## *Session II*

### CHEMICAL ASPECTS II

*Chairman: P. N. Williams*

- Isolation of phospholipids by dialysis through a rubber membrane 43  
*G. J. van Beers, H. de Jongh and J. Boldingh (Vlaardingen, Holland)*
8. The fatty acids of the acetalphospholipids 48  
*H. Debuch (Cologne, Germany)*

CONTENTS

9. South African Pilchard oil  
*D. A. Sutton (Johannesburg, S. Africa), presented by A. Antonis*
10. The polyenoic acids of fish oils  
*E. Klenk (Cologne, Germany)*

Chairman: W. Niemierko

11. A study of the component fatty acids of different Swedish diets  
*U. Bergqvist and J. Holmberg (Appelvikén, Sweden)*
12. Interconversions of the unsaturated fatty acids  
*J. F. Mead and D. R. Howton (California, U.S.A.)*
13. The biosynthesis of fatty acids by the human red blood cell  
*A. T. James, J. E. Lovelock and J. P. W. Webb (London, England)*

Session III

ABSORPTION AND DISTRIBUTION

Chairman: A. C. Frazer

14. Etude des phospholipides du contenu intestinal et des fèces en fonction du régime chez des rats normaux et porteurs de fistule biliaire  
*J. R. Clément and J. Raulin (France)*
15. Intestinal fat absorption in the frog, formation of unsaturated fatty acids and of phospholipids  
*H. Dominas, J. Karolczyk and W. Niemierko (Warsaw, Poland)*
16. The fate of dietary unsaturated fatty acids in ruminants  
*A. K. Lough and G. A. Garton (Aberdeen, Scotland)*

Chairman: E. H. Ahrens, Jr

7. Composition of the fatty acids of the human blood-serum after loading with emulsions of different types of fat  
*N. A. Pikaar, F. E. Revers and J. K. C. Rijsbosch (Utrecht, Holland)*
18. The nature of cholesteryl esters and higher fatty acids in human blood-serum  
*Č. Michaléc (Prague, Czechoslovakia)*
19. The effect of feeding various fats on the level of blood lipids  
*M. Eggstein and G. Schettler (Marburg, Germany)*

CONTENTS

Session IV

BIOCHEMICAL FUNCTIONS I

Chairman: A. E. Hansen

- |  | PAGE |
|--|------|
| 20. Essential fatty acids, lipid metabolism, and vascular disease<br><i>L. W. Kinsell, G. D. Michaels, R. W. Friskey and S. Splitter</i><br>(California, U.S.A.) | 125  |
| 21. The effect of diet on the serum lipids of Trappist and Benedictine monks<br><i>J. J. Groen (Amsterdam, Holland)</i>  | 147  |
| 22. The effect of dietary fats on serum cholesterol<br><i>H. Malmros (Lund, Sweden)</i>  | 150  |

Chairman: H. Malmros

- |   |     |
|---|-----|
| 23. Relationships between polyunsaturated fatty acids and circulating cholesterol (Abstract)<br><i>R. T. Holman and E. Aaes-Jørgensen (Minnesota, U.S.A.)</i>                 | 156 |
| 24. Preliminary studies on serum fatty acids and their relationship to diet<br><i>A. Antonis (Johannesburg, S. Africa)</i>  | 158 |
| 25. Effects of maternal diet on the fatty acid composition of human milk<br><i>W. Insull, Jr, J. Hirsch, A. T. James and E. H. Ahrens, Jr</i><br>(New York, U.S.A.)           | 168 |
| 26. The effect of corn oil on lipid clearance in patients with ischaemic heart disease<br><i>B. Bronte-Stewart and H. Blackburn (Oxford, England and Minneapolis, U.S.A.)</i> | 180 |

Session V

BIOCHEMICAL FUNCTIONS II

Chairman: L. W. Kinsell

- |  |     |
|--|-----|
| 27. Fats as limiting substances or as activators of respiratory exchange, cell growth and regeneration (Abstract)<br><i>J. Budwig (Münster, Germany)</i> | 189 |
| 28. Investigations on pre-albumin lipoprotein fractions<br><i>J. Lewin, E. Azerad and J. Ghata (Paris, France)</i>                                       | 190 |
| 29. Metabolism of albumin-bound labelled fatty acids in man<br><i>D. S. Fredrickson and R. S. Gordon, Jr (Bethesda, U.S.A.)</i>                          | 195 |
| 30. Metabolic studies in fat deficiency<br><i>T. C. Panos, J. C. Finerty, G. F. Klein and R. L. Wall (Texas, U.S.A.)</i>                                 | 205 |

CONTENTS

	PAGE
31 The structural function of essential fatty acids	208
<i>A. L. Macmillan and H. M. Sinclair (Oxford, England)</i>	
Chairman: J. J. Groen	
32. Essential fatty acid deficiency in infants	
<i>A. E. Hansen, D. J. D. Adam, H. F. Wiese, A. N. Boelsche and M. E. Haggard (Texas, U.S.A.)</i>	
33. Early lesions of experimental <i>in vitro</i> atherosclerosis	221
<i>S. M. Evans, K. D. Brown and H. K. Ihrig (Wisconsin, U.S.A.)</i>	
34. Plasma surface activity: fatty acids as surface active agents	224
<i>D. F. Davies (Wrexham, Wales)</i>	

*Session VI*

GENERAL DISCUSSION OF ESSENTIAL FATTY ACIDS

Chairman: H. M. Sinclair

35. CHEMICAL METHODS	
35.1. Practical aspects of lipid chemistry. <i>J. F. Mead</i>	235
35.2. Purity of compounds. <i>R. T. Holman</i>	238
✓35.3. Chromatographic analysis of lipids. <i>A. T. James</i>	241
35.4. Analytical methods other than chromatography. <i>P. N. Williams</i>	244
35.5. Methods of separation of lipids. <i>J. A. Lovern</i>	246
36. EFFECTS OF DEFICIENCY OF ESSENTIAL FATTY ACIDS	
36.1. Deficiency of essential fatty acids in lower animals. <i>H. M. Sinclair</i>	249
36.2. Deficiency of EFA in children. <i>A. E. Hansen</i>	256
37. Effects of fatty acids upon serum cholesterol. <i>E. H. Ahrens, Jr</i>	258
General discussion	260
Conclusion of conference	263
Author index	265
Subject index	267
