

Contents

Synthesis of Tetrahydropyran-containing Natural Products By S.V. Ley	1
Selectivity and Flexibility in Biogenetically Patterned Synthesis of Heterocyclic Compounds <i>By E. Winterfeldt</i>	18
Chemo-enzymatic Approach to Some Indole Alkaloids <i>By B. Danieli, G. Lesma, M. Mauro, and G. Palmisano</i>	28
Sulfur-substituted Tryptophan - The Core of Phallotoxins, Virotoxins, and Amatoxins <i>By H. Faulstich</i>	54
Chemistry and Biology of Ascorbigens <i>By M.N. Preobrazhenskaya, A.M. Korolev, I.L. Plikhtyak, I.V. Yartseva, S.A. Efimov, E.I. Lazhko, and L.G. Aleksandrova</i>	68
Some New Data on Structure, Properties, and Mechanism of Action of 1,2-Dihydro-3H-1,4- benzodiazepin-2-ones <i>By S.A. Andronati and T.A. Voronina</i>	87
Design, Synthesis, and Evaluation of Functional Analogues of CC-1065 By D.L. Boger	103
Stereochemical Effects During Synthesis of New Heterocycles via Intramolecular Dipolar Cycloadditions By A. Hassner	130
New Reactions of Partially Hydrogenated Ideno[1,2-b]pyridines <i>By G. Duburs, D. Muceniece, and V. Lusis</i>	144
Synthetic Studies on Biologically Active Isoquinoline Alkaloid? <i>By L. Castedo, D. Domínguez, and E. Guitián</i>	154
New Synthetic Approaches to Nuphar Alkaloids <i>By J. Nowacki and J.T. Wrobél</i>	180

Antiallergic 4<i>H</i>-Pyrido[1,2-<i>a</i>]pyrimidin-4-ones: Synthesis and Structure Activity Relationship By I. Hermechz	187
Heterocycles Designed for the Modelling of the Zinc Active Site of Liver Alcohol Dehydrogenase By R.M. Kellogg and B. Kaptein	219
Chemical Topology: Interlacing and Knotting Molecular Threads on Transition Metals By J.-P. Sauvage	223
Subject Index	229
